The Combined Finance and Revenue Accounts were originally prepared under the provisions of Section 32 of the Government of India Act, 1858. As required by that enactment these accounts were laid before the Parliament every year. The same provisions were incorporated in Section 26 of the Government of India Act, 1919. No such provision was made in the succeeding Government of India Act, 1935, and in view of the Federal set up of the country introduced by the 1935-Act, the preparation of a combined account was considered inappropriate. The decision to continue the preparation of an all-India account of the nature of the Combined Finance and Revenue Account was, however, taken by the Auditor General on domestic considerations. It was, therefore, at his instance, that a provision was made in paragraph 12 of the Audit and Accounts Order, 1936 (since replaced by the Pakistan Audit & Accounts Order, 1952) for the preparation of the Combined Finance and Revenue Accounts. This position still continues. The present volume has been issued under the provision of that Order.

SYSTEM OF ACCOUNTS

maintained entirely on mercantile system till 1765 vithout any distinction between commercial and colitical accounts. In that year the Company acquired large territory and the need for separation of political and commercial accounts was felt. An attempt was made in 1813 to separate the political accounts from commercial accounts but no progress could be made. The separation actually took place from the time of the direct assumption of responsibility for the administration of the country by the Crown. The accounts kept by the East India Company were extrem ly confusing. The company used a system of double entry, but it was spoiled in later days by a variety of obsolete entries and irrecoverable balances, and above all by a vast number of complicated and unnecessary inter-presidential and inter-departmental payments and advances. According to Sir Charles Trevelyan, "the accounts were many years in arrears; they were never closed and certainly never audited and never looked up. It was mere red tape and circumfocution and rubbish". The record of revenue and charges in the annual accounts differed widely from the actual income and the actual expenditure out of the ways and means of the year. The revenue received in a year was sometimes credited as a receipt of the previous or the next year; and similarly the expenditure of a year was not the same as the actual disbursement of that year. The cost of stores was not necessarily charged in the year of purchase against the ways and means of that year, but was debited to a separate stores account. The Stock Accounts were mixed with cash transactions, each department had a profit and loss account and there was an annual stocktaking, not only of the money in the treasury and other claims but even of the value of Government House at Calcutta and of the Fort William and the entire dead stock of the country. At the suggestion of Sir Charles Trevelyan a Committee consisting of Mr. M. H. Foster and Mr. H.WS. Whiffin was appointed to scrutinize the system of accounts. Their repor

The defects pointed out above were removed on the recommendations of the Foster Committee and the records of revenue and charges in the regular books of accounts were brought into accord with the actual receipts and payments of the year, monthly accounts of audited receipts and charges were substituted for an annual account which contained partly unaudited charges, and the completion of the revenue and finance accounts earlier than under the old system was ensured. These improvements were first carried out in the Combined Finance and Revenue Accounts of 1864-65 and 1865-66.

The system of accounts devised by Mr. Foster and Mr. Whiffin a century ago remained, in the main outline, practically the same. Some alterations therein to meet the changed conditions were made by the Government of India, Finance Department Resolution No. 3183-F, dated 16th December, 1920, and subsequently some further changes were made as a result of Constitutional changes in the country. A brief summary of these alterations is given in para 4 et seq. below.

- 3. Prior to 1833 the Annual Accounts were prepared by the three Presidencies and were sent direct to the Court of Directors. In 1833 the financial control was centralized under the Finance Department of the Govt. of India and the Presidencies were asked to send their accounts to the Court of Directors through the Central Government. The system of audit and accounts was then wanting in cohesion. There was no uniformity of classification in accounts and no general account was prepared. In 1856 the procedure prevailing in the Presidencies was assimilated by Lord Canning and a department of Audit under the Finance Department was formed for the whole of India and the post of Accountant-General of the Government of India was created.
- 4. The changes upto the end of 1878-79 were summarised in the Parliamentary paper of 1880 which are re-produced below:—
 - "From the time that the East India Company ceased to be a trading Company, till 1855, the Accounts of the Revenue & Expenditure of British India were presented to Parliament in rupees so far as related to transactions in India, and in pounds for transactions in England, a general abstract being given in which the rupees were converted into sterling money, at the rate of 2sh. the Sicca rupee (equal to 1sh. 10½d. the Company's rupee) and the final surplus or deficit was stated in pounds sterling. The Accounts showed, on the one side, the net revenue, after deducting from the gross receipts the charges of collection, refunds drawbacks, allowances, and assignments under treaties and allowances to village officers, etc., and on the other side the general charges of administration."
 - "The Accounts were presented to Parliament in the old form upto and including those for the year 1853-54. It having been considered, however, that this form called for revision, separate returns were also made in compliance with orders of the House of Commons, for 1851-52, 1852-53 and 1853-54, in which there were statements showing the total income and the total expenditure including in the latter direct claims on the revenue. Statements of net income were also given. In the Account of 1854-55 the form of these returns was adopted in place of the old forms rupees being converted into sterling at exchange of 1sh. 101d. the Company's rupee."

"In 1859 the rate of 2sh for the Government rupee (formerly called the Company's rupee) was fixed as that to be adopted in the Parliamentary Accounts".

"Accounts for 1857-58 and for all subsequent years were so prepared."

"In the accounts presented to Parliament for 1858-59 the interest on Guarantee Railway capital was for the first time shown as a charge on the revenue of the year."

"In 1867-68 the policy of constructing Extraordinary now called Productive Works from borrowed money, and excluding the Capital charges from the ordinary expenditure of the year, was sanctioned. The amount of this capital ontlay is now shown in the Statement of Receipt and Disbursements under a heading of Dabt Incurred or Debt Transferred, for productive Public Works, and the interest on that debt is shown as a charge of the year."

"In 1870-71 the system was commenced of allotting to the Provincial Governments grants of money, with the responsibility of meeting therefrom certain charges. In that year the only financial effect was an advance of £ 200,000 to provide those Govts. with a working balance, but in the following years the change affected the accounts in a twofold manner; retain receipts, estimated at about £ 650,000 being deducted from the expenditure, both sides of the account were reduced to that extent during the years from 1871-72 to 1875-76, and expenditure to the amount of about £ 5,000,000 was shown in a single line as "allotments for Provincial Services" instead of under the several headings under which it was incurred."

"In the Accounts for 1871-72 statement of net income was abandoned, and the revenue was thence-forward shown only in the gross, the direct claims thereon being included in the expenditure."

"Ir the Accounts 1876-77 the mode of exhibiting the transactions of the Provincial Governments was altered. Instead of one net sum being charged under Allotments for Provincial Services, the receipts, and expanditure were hown (as before 1870-71) under their proper headings, and the difference between the grants and the actual outlay was stated under the head of "Adjusting Receipts from Provincial Governments. (Provincial Deficits)" on the revenue side or "Adjusting Payments to Provincial Governments (Provincial Surpluses)" on the expenditure side. These two headings show, practically the balance by which the Government of India, as banker for the Provincial Governments is debtor to, or creditor by, these administrations."

"In the Accounts of the same year 1876-77 the practice was introduced of showing at the foot of the Abstracts of Ordinary Revenue and Expenditure, the annual revenue from Productive Public Works, and the annual charge for interest and work expenses in connection with them. In the case of State Works which are charged directly and managed by the Government, the whole receipts and charges are shown, in that of the Guaranteed Companies, only the net traffic receipts are given, and the interest, surplus profits, only the net charge upon the revenue in connection with the Guaranteed Companies was shown; by adopting the mode of showing the whole of the net traffic receipts on the one side, and the charge for interest on the other."

"In 1877-78, a new heading of Provincial Rates was introduced, under which were entered the receipts from the special taxation imposed on the land in 1877. In 1877-78 a further change was made, by bringing

into the general account of revenue, chiefly under the head of Provincial Rates, local funds previously accounted for separately, a corresponding charge bearing entered under previous headings on the other side".

5. The changes in the accounts made subsequent to 1878-79 are indicated below:—

Upto 1879-80 the Provincial and local deficits were shown as Revenue, and the surpluses as Expenditure, of the Government of India. In 1880-81 the deficits were removed from the Accounts of Revenue, and the total expenditure Accounts of Revenue, and the total expenditure chargeable on the revenue of the year was arrived at by adding to or deducting from the Ordinary Expenditure the difference between the Provincial and Local surpluses and deficits. In 1881-82 the head 'Gain by Exchange' was removed from the Account of Revenue, and the excess of loss over gain was shown in the Accounts of Expenditure as "Exchange on Transactions with London." In 1882-83 the gress (instead of the net) receipts of the East Indian Railway were credited to revenue, as in the case of State lines, and the working expenses were included in the expenditure ing expenses were included in the expenditure under Productive Public Works. In the Accounts of 1882-83 the General Account also was recast, the Revenue and Expenditure being shown in greater detail than before, other receipts and disbursements being for the most part shown net instead of the past and disbursements being for the most part shown net instead of the past and the past a receipts and disbursements being for the most part shown net instead costs and the transactions in India and England being no longer separated. At the same time, the Accounts of Revenue and Expenditure were arranged in appropriate groups corresponding to the head shown in the General Account. Further changes were made in the General Account in 1884-85, the most important of which related to the method of exhibition of exchange. This had previously been shown in lump sum under of exhibition of exchange. This had previously been shown in lump sum under the head "Exchange on Transactions with London", which represented roughly the difference between the sterling equivalent of the India rupee figures converted at the conventional rate of 2sh, and the actual amount received in England through the sale of Council Bills. In the year 1884-85 was introduced the system of distributing exchange over the several Major Head of revenue and expenditure, with the result that the transactions under each of these heads were shown in tens of rupees (Rx). The Exchange in respect of debt and remittance transactions was, however, shown in lump sum under a separate head and any difference between the actual exchange and the sum total of the exchange adjusted as above figure in the revenue account under the head "Exchange" in the 'Miscellaneous' group.

6. In 1899-1900 the 'Rx' system mentioned in the preceding paragraph was abandoned as a result of the rupee having attained stability at 1sh. 4d. rupee figures being thenceforth converted at Rs. 15/-a £ such trifling differences on account of exchange as occurred being distributed among the Revenue, Capital and Debt, Sections of the Account and shown in lump sum except under Capital heads. In 1906-07, the Railway transactions were shown net, the working expenses being taken in reduction of gross receipts, and certain other changes of a minor character the Reyal Indian Marine and Military Works transactions till then included with corresponding transactions in the Civil Department, being transferred to the Military Section of the Accounts. From 1920-21 the accounts were prepared on the basis of the rate

- of 2sh. per rupee for the conversion of English sterling transactions into rupees, and from 1921-22 the difference between the conventional rate and the average of exchange i.e. the average of the daily Calcutta telegraphic transfer rates on London, was distributed over the several Major Heads of revenue and expenditure. Minor changes of detail were introduced from time to time, among which may be mentioned the unification of the heads "Posts and Telegraphs" as a result of amalgamation of the two Departments, the bifurcation of several heads owing to expansion of Departmental activities and the introduction of a separate head for the adjustment of transfers between Imperial and Provincial Governments, till then adjusted by an increase or decrease of the Provincial share of Land Revenue and by a corresponding decrease or increase of the imperial share.
- 7. A complete recasting of the Accounts was rendered necessary by the Reforms scheme of 1919 and opportunity was then taken to introduce a number of improvements, all of which were given effect in the accounts for the year 1921-22. The Major changes are very briefly summarised below:—
 - (i) The exhibition of Provincial transactions as a separate entity rendered necessary by the grant of Provincial autonomy and the consequent re-arrangement of the subsidiary accounts on the basis of Government instead of areas.
 - Heads, in which special attention was paid to the complete exhibition of the transactions of Commercial Departments.
 - (iii) The framing of the accounts on a rupee basis, the sterling figures being converted into rupees instead of vice versa.
- 8. Prior to 1st April, 1921 the revenues collected in the undivided India were treated as constituting one undivided fund and they were applied for the purpose of the Government of India as a whole. The Provincial Government had no inherent legal right to the revenues which they raised. These were assigned more or less on the basis of the estimated needs of the several Provinces and this involved an apportionment different for different Provinces of the more important sources of revenue which included Land Revenue, Income Tax, Stamps, Excise, and Registration. At times the Central Authorities had to levy benevolences and at other to distribute doles according to the exigencies of finance.
- 9. A new basis of financial relations between the Centre and Provinces was introduced in 1921 to suit the wide measure of legislative, administrative and financial devolution made under Montague-Chelmsford Reforms. Subject in Governors' Provinces were classified as Central or Provincial with reference to the functions of the respective Governments and there was a clean cut division in the matter of all cation of heads of Revenue and expenditure. The Provinces also obtained a share in the growth of revenue from income-tax so far as that growth was attributable to the increase in the amount of income assessed and were also given power to impose certain new taxes. The distribution of the sources of revenue on these lines resulted in the initial stages of the working of the new arrangements in a large deficit in the Central Budget and this was met by contributions paid by the various Provinces. These contributions were gradually reduced and were completely and finally remitted with effect from the year 1928-29.
- 10. The constitutional machinery set up by the Government of India Act, 1935 made necessary a readjustment of financial resources and obligations

- between the Centre and the Provinces. The financial arrangements embedied in the Act provided for assignment to the Provinces of the definite share of the proceeds of Income-tax and its distribution amongst them in the prescribed manner, and allocation to the Jute growing Provinces of a prescribed share of the net proceeds of the export duty on Jute products. Taxes of a certain category (e. g., Duties on jute, Succession to Property other than Agricultural Land, Stamp duties on Bills of Exchange etc.) were to be levied and collected by the Centre, though the net proceeds were to be distributed to the Provinces subject to the right of the Centre to levy surcharge for its own purpose. In the same way the whole or a share of the yield of the duties on Salt and also of Federal Excise duties was assignable to the Provinces by an Act of the Federal Legislature. Provision also existed for grants-in-aid to certain Provinces which were in need of such assistance from the Centre vide Sections 137 to 142 of the Government of India Act, 1935, and Government of India (Distribution of Revenue) Order, 1936. Most of the Provinces also received special financial assistance from the Centre at the commencement of the 1935—Constitution as a result of the decentralisation of the balances and the cancellation and consolidation of pre-autonomy debt due by them to the Central Government.
- 11. Prior to 1921-22, the Provincial Governments in undivided India had no balances under debt heads except for the amount of the Development Loan raised by the Government of Bombay in 1920-21, the balances in the Government books being regarded as the assets and liabilities of the Central Government. With the degree of separation of the finance of the Central Government from those of the Provincial Governments which resulted from the Montague Chelmsford Reforms, the Provincial Governments had certain assets and liabilities definitely assigned to them and from 1921-22 it was found necessary to maintain for each Provincial Government a separate account indentical in form, with that previously maintained for the Government of India. The debt transactions of the Provincial Governments were, however, confined chiefly to loans raised by them in the open market or from the Central Government, special funds built from Provincial Revenues and loans and advances made by them out of their own funds, besides transactions relating to Provincial suspense accounts. The responsibility for the ways and means operations being vested in the Central Government, the balances of practically all other debt and remittance heads including deposits and advances and provident fund deposits of Provincial Government personnel were treated as Central.
- 12. According to the financial arrangements between the Provinces and the Centre as envisaged in the Constitution Act of 1935 it was decided that:—
 - (i) The balances of an intrinsically local nature or balances definitely associated with any function which after 31st March, 1937, became a function of Provincial Governments held in the Debt, Deposits and Remittance group of the Central Government Account, should be decentralised;
 - (ii) a part of these balances should be credited to the Provincial Governments and the remaining amount set off against the outstanding Loans and Advances previously made or deemed to have been made to those Governments by the Central Government; and
 - (iii) the balance of liabilities in respect of sums due to the Government of India on 31st March, 1937 through the Provincial Loan Fund for Loans and Advances taken previous to 1st April, 1936 should, in the case of certain Provinces, be wholly or partly

cancelled as a measure of special financial assistance and in the case of others should with certain exceptions, be treated as a consolidated debt repayable to the Government of India in the form of semi-annual equated payments of interest and principal within a period of 45 years.

- 13. These adjustments were effected immediately before the commencement of Provincial Autonomy as from the closing of the accounts for 1936-37.
- 14. The book balances of the Provinces as on 31st March, 1937 which were held in deposit within the Central Government on that date were made over to the Province on 1st April, 1937 partly in the form of physical cash balances in their treasuries and sub-treasuries and partly in the form of cash credits to their account with the Reserve Bank of India.
- 15. From 1st April, 1937 the general structure of the accounts was recast to correspond with the changes in the financial system entailed in the Constitution of 1935 and the changes in the banking and accounting arrangements consequent on the Provinces taking over and managing their own balances with effect from the date of introduction of Provincial Autonomy. The principal changes introduced were:—
 - (i) Complete separation of the accounts of Provincial Governments from the accounts of the Central Government and the constitution of the accounts of each autonomous province as an independent unit with separate cash balance in treasuries and the Reserve Bank.
 - (ii) A general recasting of the list of major and minor heads to conform to the new division of functions between the Central and Previncial Governments.
 - (iii) Abondonment of the system of final accounting in the books of the Secretary of State and High Commissioner in the United Kingdom of transactions of Provincial Governments and the substitution in its place of a system of adjustment of those transactions in the Indian books except those under certain debt and remittance heads which were essentially of sterling character. This arrangement continued in Pakistan after independence.
- 16. Prior to the introduction of the Constitution in 1962 there were four main divisions of Government Accounts:—
 - 1. Revenue.
 - 2. Capital.
 - 3. Debt.
 - 4. Remittance.

From the accounts for 1962, Government accounts are kept in the following two parts:—

Part I

Consolidated Fund: All revenues received by the Central Government, all loans raised by that Government by the issue of treasury bills, loans or ways and means advances and all moneys received by that Government in repayment of loans form one consolidated fund entitled "The Central Consolidated Fund", and all revenue received by the Government of a Province, all loans raised by that Government by the issue of treasury bills, loans or ways and means advances and all moneys received by that Government in repayment of loans form one consolidated

fund entitled "The Consolidated Fund of the Province".

- No moneys out of the "Central Consolidated. Fund" or the "Consolidated Fund of a Province" can be appropriated except in accordance with law and for the purposes and in the manner provided in the Constitution.
- All issues of public money on account of cost of collection of revenue, expenses, of civil administration, expenses of the Public Works Department, Defence Services, administration of debt services, capital outlay on public works, repayments of permanent and floating debt (which includes treasury bills, ways and means advances etc.) and loans and advances made by Government are treated as expenditure out of the Consolidated Fund which come within the jurisdiction of the Legislature.

Part II

"Other Moneys".—For payment out of the "Other Moneys", no demand is required to be presented to Legislature and the requirements are met by executive authority from time to time as they arise. These payments are largely of the nature of banking transactions. State Provident Funds, Depreciation and other Reserve Funds of Government Departments. Postal Savings Bank Post Office Cash and other Savings Cartificates, Postal Life Insurance Funds, ad hoc funds created by Government by appropriation from revenue or otherwise, miscellaneous deposits and remittances are included in the Other Moneys. It is broadly correct to say that none of the money lying in the Other Moneys belong to Government. They have to be paid back at sometime or other to the public, as in the case of State Provident Funds. Postal Savings Bank, Postal Cash Certificates, etc. are to be utilised by Government in an agreed manner, as in the case of ad hoc funds set up for special purposes. It may be mentioned that the approval of Legislature is necessary to any Appropriation from revenue to create a fund.

CONSOLIDATED FUND

In Part I of the Account—Consolidated Fund—there are three main divisions, namely:—

- Revenue and Expenditure;
- (2) Capital; and
- (3) Debt.

Revenue and Expenditure:—This division deals with the proceeds of taxation and other receipt classed as revenue and the expenditure incurred therefrom, the net result of which represents the revenue surplus or deficit for the year.

Capital:—This division deals with the expenditure met usually from borrowed funds with the object either of increasing concrete assets of a material character or of reducing recurring liabilities, such as those for future pensions by payments of the capitalised value. It also includes receipts of a Capital nature intended to be applied as a set-off to Capital Expenditure.

Public Debt:—This division comprises loans raised by Government—Loans of a purely temporary nature classed as "Floating Debt" (such as Treasury Bills, Ways and Means Advances) as well as other loans classed as "Permanent Debt" and "Loans and Advances made by Government" together

with repayment of the former and recoveries of the

Permanent Debt includes all debts, which at the time it is floated, has a currency of more than

Floating Debt: -These are borrowings of a purely temporary nature with a currency of less than 12 months and comprises of:—

- (i) Treasury Bills.—These are issued to finance a short term (3 to 12 months) excess of expenditure over revenue, and have to be repaid on maturity. Treasury bills were issued for the first time in 1917.
- (ii) Ways and Means Advances: -These are the advances taken from the State Bank to tide over the temporary difficulties. Both principle and interest of such advances are repaid as soon as revenue comes in and in any case by the end of the year.

In Part I of the Account unexpected expenditure met out of the Contingency Item referred to in Art. 45 (1) of the Constitution of Islamic Republic of Pakistan is also accounted for under the relevant Service and Capital heads of account.

OTHER MONEYS

In Fart If of the Account—"Other Moneys"—there are two main divisions namely: -

- 1. Debt (other than those included in Part I) and Deposits; and
- 2. Remittances.

The first division comprises receipts and payments, other than those falling under Debt Heads pertaining to Part I, in respect of which Government incurs a liability to repay the moneys received or has a claim to recover the amounts paid, together with repayments of the former and recoveries of the latter. The second division embraces all merely adjusting heads under which appear Remittances of cash between treasuries, transfers between different accounting circles and remittances between Pakistan and England. Credits and debits taken to the adjusting heads in this division are cleared eventually by adjustment under final

- 17. The transactions included in these accounts represent mainly the actual cash receipts and disbursements during the financial year as distinguished from amount due to or by Government during the same period. The cash basis system is, however, not entirely suitable for recording the transactions and presenting the true state of affairs of Government. Commercial undertaking run on commercial principles. The detailed accounts of this class of undertakings are, therefore, maintained outside the regular accounts in proper commercial form and these accounts are subject to a suitable check by Audit Department.
- 18. Sections and Major Heads of Accounts:— Within each of the division mentioned above, the transactions are grouped into sections which are further sub-divided into major heads of accounts. The sections are distinguished by letters of the alphabet, a single letter denoting the revenue portion and a double letter denoting the Capital portion of the parti-cular category of transactions. The major heads in the Revenue and Capital divisions are numbered serially, Reman numbers being employed on the receipt side and Arabic on the disbursement side. No numbering is adopted for the Debt, Deposit and Remittance heads.

- 19. The Major heads are sub-divided into Minor heads, sub-heads and Detailed Heads. Under each of the Major and Minor heads the expenditure is shown distributed between 'Charged' and 'Other than Charged'. The latter being further sub-divided into "New" and "Other than New" expenditure. The Major and Minor heads and the Sub-heads prescribed for the classification of expanditure in the general accounts are not necessarily identical with the grants, sub-heads and other units of allotments the grants, sub-heads and other units of allotments which are selected by the Ministry of Finance for the Demands for grants and the Appropriation Accounts: but in general, a certain degree of co-relation is maintained between the Demands for Grants and the Appropriation Accounts on the one hand and the Finance and Revenue Accounts on the other.
- Balances and Reserves:-The accounts work from balance to balance, these balances working up to the general cash balance, a small portion of which is kept in the treasuries all over Pakistan and in the Bank of England, in England, while the bulk is deposited with the State Bank of Pakistan. Apart from these Cash Balances are the Cash Balance Investment Account and other Special Reserves invested outside the general cash balance of Government. In addition some cash balances and Imprest are held by the Departmental Officers.

REVENUE

- 21. Under the Government of India Act, 1935, the sources of revenue were categorized under four heads into:-
 - 1. Taxes levied and retained by the Centre.
 - Taxes levied by the Centre but divided between the Centre and the Provinces.
 - Taxes levied by the Centre but distributed to the Previnces.
 - 4. Taxes levied by the Provinces.

Category 1.

Taxes levied and retained by the Centre. These included import duties, income and corporation taxes, and receipts from public undertakings administered by the Centre e.g., railways, posts and telegraphs.

Category II.

Taxes levied by the Centre but divided between the Centre and the Provinces. Under this category fall export duties, excise duties (except liquors, drugs, narcotics, and some other items), taxes on individual incomes other than agricultural incomes. No part of the collections from these taxes, except income taxes and export duties on Jute were payable to the units in the absence of Federal legislation, and since none was passed, these were sources of Federal revenue at the time of Independence.

Category III.

Taxes levied by the Centre but distributed to the Provinces. These were composed of stamp duties in respect of various instruments of credit, terminal taxes on movements of goods and passengers by rail or air, and succession duties (except on agricultural property, levied by the Centre merely in the interest of uniformity).

Category IV.

Taxes levied by the Provinces. Major sources were land revenue, irrigation charges and sales tax. It also included succession duties on agricultural property, taxes on agricultural incomes, duties on goods and passengers carried by

waterways, tolls, excise duties on items exempted from central excise and taxes on employment and professious, mineral rights and entertainment.

THE NIEMEYER AWARD, 1937.

The terms of the Government of India Act, 1935, relating to income taxes and the Jute export duty were elaborated by the Niemeyer Award of 1937, which also incorporated provisions for additional assistance to cartain provinces. The provincial subvention of Rs. I crore and Rs. 1.5 crore respectively together with share of the divisible pool of income tax collections was prescribed and jute growing provinces were allotted a share in the export duty on Jute at 62.5 per cent. of collections from the basic duty. In view of their meagre revenue resources, the North-West Frontier Province and Sind were given central subventions of Rs. 1 crore and Rs. 1.5 crore respectively together with certain readjustments in public debt and debt owing to the Centre. The subvention to Sind was discontinued during the war years, when prosperity came to the Province.

POST-INDEPENDENCE PROCEDURE

The first Pakistan budget for the seven and a half mouths following Independence, ending March 1948, made certain changes in the above plan. A major change was to re-include railway finances in the general budget. The Railway Convention of 1921, providing for a separate railway budget, had been rendered almost inoperative by exigencies of War finance, and the re-amalgamation of Railway accounts in the ordinary budget only recognized the existing situation. At the same time it was ensured that the Railways would continue to accumulate depreciation funds at normal rates and to operate as much as possible on commercial lines.

It was felt that some radical fiscal adjustments were necessary to meet the conditions resulting from Independence. A new Central administration had to be established. The influx of refugees placed a huge financial burden on the Provincial Governments which they could not bear alone, and the Centre had to provide financial assistance. Defence expenditure also increased sharply. It became Pakistan's responsibility to defend the vulnerable and explosive Durand Line, dividing the Tribal Areas in the north-west from Afghauistan. The Railways were burdened with surplus staff and their fuel costs rose as coal supplies from India were irregular.

While central responsibilities were mounting earnings from Central revenue heads were inadequate to match them. Collections from income taxes, for example, were less than half of what might be expected from Pakistan's share of the population of undivided India. This was partly due to such temporary circumstances as the arrears left behind by evacuees, collection of income taxes and corporation taxes at the head offices of firms (many of which remained in India), and business stagnation and chaos during the first post-Independence year. But a mere fundamental cause was the under developed character of the Pakistan economy the vast poverty stricken agricultural population which included a few who were liable to direct taxes. Central excise duties presented even more difficult problems since these were collected at points of manufacture, many of them in India, even though the goods were consumed in Pakistan.

Consequently, the Central budget for 1948-49 incorporated certain adjustments. New taxes were imposed, designed to raise an additional Rs. 10.16 crores. After consultation with the Provinces, the sharing of income taxes under Section 138 of the Government of India Act, 1935, was temporarily suspended. Through a new section 140A of the Act the sales tax, a Provincial source of revenue, was temporarily handed over to the Centre (subject to allocation of 50 per cent

of its proceeds to the Provinces) and made permanent by the Raisman Award in 1951, discussed later. Development grants to the Provinces were suspended: However, the subvention to the N.W.F.P. and East Pakistan's share in the jute export duty were continued. It was further agreed that the Provincial Governments would leave the raising of money through public loans to the Central Government, which would, in turn, provide loans to the Provinces.

THE RAISMAN AWARD, 1951.

The Central finances began to improve after the middle of 1950 as prices of cotton and jute rose under the pressure of international events, and Government was able to levy higher export duties on jute, cotton and wool. A liberal import licensing policy was inaugurated in 1950 and extended in 1951, bringing increased collections from import duties. At the stage, the Provinces justifiably made claims for a larger share of revenues. It was decided in July, 1951 to invite fir Jeremy Raisman, a former Finance Member in the undivided Government of India, to examine the allocation of revenues between the Centre and the Provinces, in relation to their respective responsibilities and to suggest changes required for a more equitable allocation. His recommendations were accepted by the Central and the Provincial Governments, and formed the basis of the financial arrangements. According to the Raisman Award:—

1. 50 per cent of the net proceeds of income tax (other than corporation tax and those pertaining to the Federal Capital and Federal emoluments) were to be distributed as follows:

East Pakistan	••	••	45	per	cent
Punjab		**,	27	7,	72
Sind	••	••	12	,.	>=
N.W.F.P.	••	••	8	,,	,,
Bahawalpur	••	4 •	4	,,	,,

The remaining 4 per cent was meant for Baluchistan and other States which might accede and in the meantime this was allocated to the then existing units in the same proportion.

2. Sales tax was to remain centrally administered, but the Provinces were to receive half of the net cellections in their area. In view of the importance of Karachi as the nerve centre of trade and commerce, half of the collections in Karachi area were allocated to the various units in West Pakistan as follows:

Punjab	••	••	54	per	cent
Sind	••		16	,,	٠,
N.W.F.P.	• •		10	,,	,,
Bahawalpur	••		4	,,	
Karachi	. • •		6	,,	,
Baluchistan	• •	••	2	*	,,
Tribal Areas a	nd other State	s	8	,,	

- 3. 50 per cent of the net proceeds of the excise duties on tobacco, betelnuts and tea were to be divided among the various units in accordance with the percentage for distribution of income tax receipts.
- 4. East Pakistan was allocated 62½ per cent of the basic jute duty and 10 per cent of any additional duty.

5. The subvention for N.W.F.P. was raised from Rs. 1 crore to Rs. 1.25 crore.

INTEGRATION OF WEST PAKISTAN

After the amalgamation of the Provinces in West Pakistan into One Unit in 1955, the share of income tax for West Pakistan was fixed at 55 per cent, East Pakistan receiving the balance. The Central excise duties on tobacco, betelnuts and tea were divided in the same ratio. Actually, due to non-issue of orders prescribing revised percentages of Provincial share, West Pakistan received a some-what smaller share (53.74-per cent) of the allocation which was compensated through grants-in-aid. Half the sales tax receipts of Karachi were allocated to West Pakistan after retaining 6 per cent for the Karachi area.

DISTRIBUTION OF REVENUE

The Government in December, 1961 set up a high-powered Commission to look into the whole problem of allocation of sources of revenues between the Centre and the Provinces, keeping in view the growing responsibility of the Provinces in financing the development programme.

The Commission submitted its report in January, 1962. Most of the recommendations of the Commission were accepted by the Government, while some were accepted with modifications. To implement the Government's decision a Presidential Order called the 'Pakistan Distribution of Revenue and Consolidation and Payment of Loans Order, 1962' was issued. The main provisions of this Order which came into force from July 1, 1962 are:

- 1. The Provinces shall be assigned in each year, beginning on and after the first day of July 1962, a share of the net proceeds of the following taxes and duties levied and collected by the Central Government in that year calculated according to the percentages specified below.
 - (i) Taxes on income .. 50 per cent
 - (ii) Sales-tax 60 ,, ,,
 - (iii) Central excise duties on tea, betelnuts and tobacco (manufactured and uumanufactured) 60 ,,
 - (iv) Export duties on jute and cotton .. 100 per cent
- 2. The sums assigned to the provinces above shall not form part of the Central Consolidated Fund and shall be distributed between the Provinces in the following manner:
 - (i) Sales Tax :--
 - (a) of the 30 per cent of the sum assigned in each year, to each Province shall receive an amount bearing to the said 30 per cent in the same proportion as the collection in that Province in that year bears to the total collections, and
 - (b) of the balance of 70 per cent. of the sum so assigned in each year East Pakistan shall receive 54 per cent, and West Pakistan 46 per cent.
 - (ii) Other taxes and duties :-

Of the sum so assigned in each year, East Pakistan shall receive 54 per cent and West Pakistan 46 per cent.

- 3. Taxes on income includes corporation tax but does not include taxes payable in respect of Central emoluments and any surcharge levied and collected by the Central Government for Central purposes.
- 4. The estate and succession duties in respect of agricultural land and the taxes on capital value of immovable property shall be collected by the Central Government and their net proceeds shall be assigned to the Provinces in which they arise.
- 5. The Province of West Pakistan shall continue to receive a sum of Rs. 227 lakhs raised to Rs. 299 lakhs w.e.f. 1963-64 as a grantin-aid.
- 6. All loans made by the Central Government to the Provinces after August 14, 1947 (other than foreign loans including rupees) and outstanding on June 30, 1961 shall be written down by fifty per cent and converted into two loans each of which shall bear interest at the rate of 3½ per cent and shall be repayable by the Province concerned to the Central Government over a period of twenty-five years commencing on the 1st day of July 1961.
- For the purposes of the preceding paragraph 'loans exclude such loans which the Central Government obtained from foreign agencies for the Provinces and which shall continue to be repaid by the Provinces in accordance with the terms and conditions of those loans.

NATIONAL FINANCE COMMISSION

- 22. In view of the growth of economy and the need to provide more resources to the Provinces for development purposes, the Central Government appointed a National Finance Commission to make recommendations about allocation of revenues between the Central and the Provincial Governments and other ancillary methods. The Commission was set up under Article 144 of the Constitution on March 31, 1964. The following recommendations made by the Commission have been accepted by Government.
- "1. Out of the net proceeds of the following taxes and duties, 65 per cent be assigned to the Provinces and 35 per cent retained by the Centre:
 - (i) Taxes on income, including corporation tax, but not including taxes on income consisting of remuneration paid out of the Central Consolidated Fund.
 - (ii) Sales tax.
 - (iii) Excise duties on tea, tobacco and betelnuts.
 - (iv) Export duties on jute and cotton.
 - The basis for distribution between the two Provinces of the sums so assigned to them should continue as at present, i.e., in the case of taxes on income, excise duties and export duties, East Pakistan shall receive 54 per cent and West Pakistan 46 per cent, while in the case of sales tax, 30 per cent shall be distributed on the basis of collections in each Province and the balance in the same ratio as other taxes.
- 2. In order that the additional resources accruing to the Provinces as a result of enhancement of their share in the Central divisible taxes are utilised for development purposes only, a suitable procedure should be devised by the three Governments.
- 3. The two Provincial Governments should endeavour to raise additional revenues by fresh taxation during the next Plan period to augment their resources for development. A study be undertaken to explore as

5. The subvention for N.W.F.P. was raised from Rs. 1 crore to Rs. 1.25 crore.

INTEGRATION OF WEST PAKISTAN

After the amalgamation of the Provinces in West Pakistan into One Unit in 1955, the share of income tax for West Pakistan was fixed at 55 per cent, East Pakistan receiving the balance. The Central excise duties on tobacco, betelnuts and tea were divided in the same ratio. Actually, due to non-issue of orders prescribing revised percentages of Provincial share, West Pakistan received a some-what smaller share (53.74-per cent) of the allocation which was compensated through grants-in-aid. Half the sales tax receipts of Karachi were allocated to West Pakistan after retaining 6 per cent for the Karachi area.

DISTRIBUTION OF REVENUE

The Government in December, 1961 set up a highpowered Commission to look into the whole problem of allocation of sources of revenues between the Centre and the Provinces, keeping in view the growing responsibility of the Provinces in financing the development programme.

The Commission submitted its report in January, 1962. Most of the recommendations of the Commission were accepted by the Government, while some were accepted with modifications. To implement the Government's decision a Presidential Order called the 'Pakistan Distribution of Revenue and Consolidation and Previous of Loans Order, 1962' was issued. The main previsions of this Order which came into force from July 1, 1962 are:

- 1. The Provinces shall be assigned in each year, beginning on and after the first day of July 1962, a share of the net proceeds of the following taxes and duties levied and collected by the Central Government in that year calculated according to the percentages specified below.
 - (i) Taxes on income .. 50 per cent
 - (ii) Sales-tax 60 ,, ,,
 - (iii) Central excise duties on tea, betelnuts and tobacco (manufactured and unmanufactured) ... 60 ,,
 - (iv) Export duties on jute and cotton 100 per cent
- 2. The sums assigned to the provinces above shall not form part of the Central Consolidated Fund and shall be distributed between the Provinces in the following manner:
 - (i) Sales Tax :--
 - (a) of the 30 per cent of the sum assigned in each year, to each Province shall receive an amount bearing to the said 30 per cent in the same proportion as the collection in that Province in that year bears to the total collections, and
 - (b) of the balance of 70 per cent. of the sum so assigned in each year East Pakistan shall receive 54 per cent, and West Pakistan 46 per cent.
 - (ii) Other taxes and duties :--

Of the sum so assigned in each year, East Pakistan shall receive 54 per cent and West Pakistan 46 per cent.

- 3. Taxes on income includes corporation tax but does not include taxes payable in respect of Central emoluments and any surcharge levied and collected by the Central Government for Central purposes.
- 4. The estate and succession duties in respect of agricultural land and the taxes on capital value of immovable property shall be collected by the Central Government and their net proceeds shall be assigned to the Provinces in which they arise.
- 5. The Province of West Pakistan shall continue to receive a sum of Rs. 227 lakhs raised to Rs. 299 lakhs w.e.f. 1963-64 as a grantin-aid.
- 6. All loans made by the Central Government to the Provinces after August 14, 1947 (other than foreign loans including rupees) and outstanding on June 30, 1961 shall be written down by fifty per cent and converted into two loans each of which shall bear interest at the rate of 3½ per cent and shall be repayable by the Province concerned to the Central Government over a period of twenty-five years commencing on the 1st day of July 1961.
- For the purposes of the preceding paragraph 'loans exclude such loans which the Central Government obtained from foreign agencies for the Provinces and which shall continue to be repaid by the Provinces in accordance with the terms and conditions of those loans.

NATIONAL FINANCE COMMISSION

- 22. In view of the growth of economy and the need to provide more resources to the Provinces for development purposes, the Central Government appointed a National Finance Commission to make recommendations about allocation of revenues between the Central and the Provincial Governments and other ancillary methods. The Commission was set up under Article 144 of the Constitution on March 31, 1964. The following recommendations made by the Commission have been accepted by Government.
- "1. Out of the net proceeds of the following taxes and duties, 65 per cent be assigned to the Provinces and 35 per cent retained by the Centre:
 - (i) Taxes on income, including corporation tax, but not including taxes on income consisting of remuneration paid out of the Central Consolidated Fund.
 - (ii) Sales tax.
 - (iii) Excise duties on tea, tobacco and beteinuts.
 - (iv) Export duties on jute and cotton.
 - The basis for distribution between the two Provinces of the sums so assigned to them should continue as at present, i.e., in the case of taxes on income, excise duties and export duties, East Pakistan shall receive 54 per cent and West Pakistan 46 per cent, while in the case of sales tax, 30 per cent shall be distributed on the basis of collections in each Province and the balance in the same ratio as other taxes.
- 2. In order that the additional resources accruing to the Provinces as a result of enhancement of their share in the Central divisible taxes are utilised for development purposes only, a suitable procedure should be devised by the three Governments.
- 3. The two Provincial Governments should endeavour to raise additional revenues by fresh taxation during the next Plan period to augment their resources for development. A study be undertaken to explore as

to how a percentage of the increase in yields accruing to the agriculture sector as a result of development can be obtained to improve the revenues of the Provincial Governments.

- 4. Greater and more effective financial discipline should be imposed on development expenditure. It would be desirable to undertake a study of the pattern of investment in the public sector to ensure that investments in unremunerative projects are reduced to the minimum. The authorities recommending schemes for approval must satisfy themselves about the financial returns of the schemes and put forward sufficient reasons in cases where financial unremunerative schemes are recommended for approval.
- 5. At the time of preparation of the Annual Development Programme, a foreign exchange investment budget should also be prepared in order to co-ordinate the foreign exchange component of the programme to the available foreign exchange resources.
- 6. With the introduction of the revised arrangements recommended for distribution of revenues, the present practice of giving separate development grants for plant protection and other transferred development schemes should be discontinued.
- 7. The non-development grants in respect of transferred institutions should be continued. These should be fixed at the level of the provision made in the Central budget for 1964-65 and should be disbursed in accordance with the procedure being followed in the case of revenue subvention to the West Pakistan Government.
- 8. As far as possible, development grants from the Centre to the Provinces should not be tied to specific projects but should be pooled and earmarked generally for financing the revenue component of the development programme, except for schemes of high priority or of national importance or schemes financed on a sharing basis, like family planning and distribution of fertilizers.
- 9. The procedure for release of grants to the Provinces from the Central Read Fund be simplified on the pattern of releases of Central cash development loans.
- 10. The annual subvention of Rs. 299 lakhs to the West Pakistan Government should be continued. However, the present procedure of rendering of accounts for grants for roads in the Tribal Areas should be reviewed and simplified.
- 11. The existing arrangements for other grants-inaid by the Centre to the two Provinces be continued.
- 12. It is not advisable to impose any statutory limit on the borrowing powers of the Central Government. It is also not necessary to place any limits on the borrowing powers of the Provincial Governments in addition to those already provided for in Article 140 of the Constitution, which are sufficient to enable the Central Government to regulate borrowings by the Provincial Governments in keeping with conditions in the money market."

PROVINCIALIZATION OF RAILWAYS

- 23. Until the financial year 1960-61 the Railway budget formed a part of the Central Government budget. To enable the railways to function on a proper commercial basis and implement a settled policy of making a definite return to general revenues on money expended by the State on Railways, the Government separated the Railway finance from the general finance with effect from the financial year 1961-62 in accordance with the following convention:
 - (1) The Railways will pay to the general revenues a fixed return of 4 per cent. on

Government investment in Railways (which will include investment on strategic lines) at the close of the preceding financial year. The balance of their surpluses will be retained for credit to such funds and reserves as may be considered necessary.

- (2) The interest-free loan advanced to the Railways towards meeting the deficit in the Depreciation Reserve Fund (estimated to be Rs. 31.97 crores on June 30, 1961), will be written off and a sum of Rs. 21.78 crores will be added to the Capital-st-Charge of the Railways.
- (3) The Railways will pay actual interest charges on all foreign loans including existing foreign loans obtained for them. They will also be responsible for repayment of the foreign loans required for rehabilitation and replacement of their asset. The general revenues will be responsible for the repayment of foreign loans raised for additions and development of the Railways. As and when an instalment towards repayment of loans is paid by the general revenues, the Railway will cease to pay interest on the loan to that extent and the amount of the instalment will be added to the Goernment's investment in Railways and will qualify for 4 per cent return in accordance with clause (1) above.

A century of Central control of the Tailways however came to an end from July 1, 1962, when the railways' administration was transferred to the Provinces, in accordance with a decision taken by the Government on February 22, 1962. This decision was also incorporated in the new Constitution of 1962.

NEW TERMINOLOGY

24. The Constitution of 1962 has given a new slant to the popular words in budgetary terminology like Recurring Expenditure, Project Expenditure and New Expenditure, which are briefly explained below:

Recurring Expenditure. Recurring expenditure is that which ordinarily recurs from year to year but excludes project expenditure which is defined as follows:

Project Expenditure. Project expenditure means the total phased cost of a project, as specified against individual years. The phasing is to be approved by the Legislature. Once it is approved, the phased cost of a particular year is the project expenditure for that year.

New Expenditure. The term 'new expenditure' has been defined in the Constitution to mean:—

- (a) Where expenditure for a project for that year has previously been approved by the National Assembly in pursuance of Article 42—so much of any expenditure fc. that project for that year as exceeds the expenditure approved for that year by more than ten per cent. of the approved expenditure;
- (b) Any other expenditure which is not a recurring expenditure;
- (c) Any expenditure which is a recurring expenditure and which is for a purpose in respect of which no provision was made by way of a recurring expenditure in the Schedule of Authorised Expenditure for the previous financial year, and
- (d) So much of any expenditure which is a recurring expenditure and which is for a purpose in respect of which provision was made by way of a recurring expenditure in the Schedule of Authorised Expenditure for the previous

financial year as exceeds that expenditure by more than ten per cent. of that expenditure.

The Constitution lays down different procedures for dealing with 'new expenditure' and 'other than new expenditure' in the Assembly. A demand for New Expenditure can be reduced by the House while 'other than new expenditure' can be reduced by them with the concurrence of the President (or Governor in the case of the Provincial Government).

CONSOLIDATION OF ACCOUNTS

- 25. The following are in brief the general outlines of the system of Government accounts in Pakistan:—
 - All receipts on behalf of Government are paid into a treesury or the Bark. Except as provided for below, the initial accounts of such receipts are maintained at the treasury. Receipts realised in the Railway, Defence, Posts and Telegraphs. Public Works and Forest Departments as well as in the Mint, are paid into a treasury or the Bank in lump and are accounted for at the treasury merely as receipts on behalf of such departments. The detailed accounts of such receipts are kept by dapartmental officers concerned.
 - All payment on behalf of Government are made either at a treasury or the Bank; or, sums are withdrawn in lump, from a treasury or the Bank, by some departmental officer for making payments. In the former case the initial accounts of payments are kept at the treasury. In the latter case such accounts are maintained by the departmental officer concerned.

- The treasury officers as well as the departmental officers referred to above render the accounts of their transactions to their respective Audit officers.
- Accounts received from treasuries and departmental officers are classified in the Audit Office and abstracted under the appropriate heads of accounts classification. Some departmental officers are, however, required to render compiled accounts with suitable abstracts of their transactions classified under heads of accounts. In such cases, the accuracy of these abstracts is checked in the Audit Office.
- Transactions in one Audit Circle which affect the accounts of another Audit Circle are passed on, month by month, to such circle for adjustment.
- The classified abstracts together with transactions passed on for adjustment by other Audit Circles are consolidated, month by month, into one account for the whole Audit Circle.
- Each Audit Officer simultaneously works out the progressive figures during the year; of the accounts of his Audit Circle. On closing the accounts of June (Final) the account of the Audit Circle for transactions of the whole year, is submitted by each Audit Officer to the Comptroller & Auditor-General.
- The Comptroller and Auditor-General consolidates the annual accounts of all Audit Officers into one annual account,—the "Combined Finance and Revenue Accounts of the Central and Provincial Governments in Pakistan".

Note:-In using this compilation the following general information may be noted:-

- (i) In Pakistan, the financial year is now from July 1 to June 30. Thus, 1964-65 means the year from July 1, 1964 to June 30, 1965.
- (ii) 100 thousands = 1 lakh.

 100 lakhs = 1 crore.

 10 lakhs = 1 million.

 1 crore = 10 million.
- (iii) Rs. 1 crore is equal to U.S.A. \$ 2.1 million or £ 7,59,000 sterling.

A. and AA. - Principal Revenue Heads, etc.

## Section A. and AA. Principal Revenue Heads and Direct Demands on Revenue

Section-A deals with the principal sources of Central and Provincial revenues and the charges in respect of collection and administration thereof. The revenue carned by the Commercial Departments of Railways, Irrigation and Post Office, Telegraph and Telephone is dealt within separate sections assigned to those Departments. The arrangement of the heads in this Section follows

generally the Order of their relative importance as determined by their yield, the Central heads being shown first and the Provincial heads, thereafter.

2. Section-AA—deals with the Capital expenditure incurred in Revenue Departments for improvement or development of revenue sources, such as Forests, etc.

#### I. and I. Customs

#### REVENUE

The bulk of the customs revenue is made up of-

- (a) Import Duties.
- (b) Export Duties.

the duties being credited under two distinct sub-heads in the accounts, 'Sea Customs' and 'Land Customs'. The latter class consists of duty levied on exports or imports by land between any territory declared under Section 5 of the Tariff Act, 1934, to be "foreign territory" and Pakistan. The customs duty on salf is credited not to the head 'Customs' but to 'Salt' along with the excise duty thereon, to which that duty is intended to be a countering duty. It may be mentioned that duty on the importation of foreign liquors is credited as Customs revenue while licence duty for sale of foreign liquors is treated as Provincial 'Exciso'

2. A portion of the import duty on motor

spirit is ear-marked for credit to the 'Central' Road Fund':

- 3. Export duty on "Other Agricultural produce" is in the nature of cess imposed for certain specific purposes. It does not, therefore, form part of general revenues, but made over, less cost of collection to the statutory body concerned.
- 4. The various articles on which duties were levied are set forth in Account No. 9, together with the gross yield of each and the net yield after deducting the refunds and draw-backs.
- 5. The share of net proceeds of Export duty assigned to the Provinces has been shown as a reduction of revenue of the Central Government in Account No. 9.

# EXPENDITURE

6. The expanditure incurred is in respect of Establishment employed on the collection of 15-venue.

H and 2.—Central Excise Duties

The various articles on which Central Excise Duties were realised in 1964-65 are set forth in Account No. 10, together with the gross yield of each and the net yield after duducting the refunds and drawbacks.

 A portion of Excise duty on Motor spirit is carmarked for credit to the Central Road Fund. 3 Sixty per cent of the net proceeds of the duties on tobacco (both manufactured and unmanufactured), tea and beteinus are assigned to the two Provinces. East Pakistan received 54 per cent and West Pakistan 46 per cent of this share. This arrangement is governed by the Pakistan (Distribution of Revenue and Consolidation and Payments of Loans) Order, 1962.

#### III and 3.—Corporation Tax

#### REVENUE

The revenue under this head is derived from Super Tax Business Profits Tax and Excess Profits Tax in so far as these taxes are payable by companies.

 Business Profits Tax, at the rate of sixteen and two-thirds per cent of the taxable profits was levied on the amount of the taxable profits in respect of any business to which the Business Profits Tax Act. 1947, applied.

3. The levy of Excess Profits Tax ceased with the chargeable accounting period ending on the 31st day of March, 1946. There were however, a number of pending cases, some of which were disposed of and tax collected during the year.

#### **EXPENDITURE**

4. No separate establishment is employed for the assessment and collection of III—Corporation Tax.

No. 11 -ACCOUNT of Receipts of Corporation Tax for the year ended 30th, June, 1965.

#### IV and 4.—Taxes on Income other than Corporation Tax

#### REVENUE

The Taxes on Income other than Corporation Tax comprise Income-tax charged both from companies and assessees other than companies; and Super Tax and Excess Profits Tax, levied and collected from assessees other than companies. Income-tax during 1964-65 was charged as usual at different rates, from (1) companies and local authorities, (2) individuals, Hindu undivided Families, unregistered firms and other associations of persons, etc.

- 2. Super-tax was payable in addition to Income-tax in the case of every individual, etc. on graduated scale.
- 3. For complete particulars regarding the rates of Income-tax and Super-tax levied during 1964-65 see the Schedule to the Finance Act, 1964.
- 4. The levy of Excess Profits Tax was discontinued with effect from the chargeable accounting

period commencing on the 1st day of April, 1946. Some of the pending Excess Profits Tax assessments were, however, made and the tax collected.

#### **EXPENDITURE**

5. The expenditure shown under this head relates chiefly to the establishments employed on the assessment and collection of the taxes. No separate establishment is employed for the assessment and collection of Corporation Tax, but the establishment which assesses and collects taxes on Income also assesses and collects Corporation Tax. The charges for the entire establishment are in the first instance accounted for under this head and at the end of the year a proportionate share in the ratio in which the Net Revenue receipts are booked under the head "III—Corporation Tax" and "IV-Taxes on Income other than Corporation Tax" is transferred to the head "3—Corporation Tax" by credit to this head.

# IV-A and 4.A.—Sales Tax

The net proceeds of sales tax collections are shared between the Central and Provincial Governments @ 40% and 60 per cent respectively. In the year 1964-65 East Pakistan and West

Pakistan received 54 and 46 per cent out of 70 per cent of the Provincial shares and the remaining 30 per cent was distributed between them in the ratio of collections made in their respective areas.

#### IV-B—Taxes on Income realised under Martial Law Regulation No. 43 as amended by Regulation No. 48

This major head was opened with effect from the Accounts for the year 1958-59 with the imposition of Martial Law Regulations No. 43 (as amended by M.L.R. No. 48). This Regulation was promulgated in December, 1958 under which a large number of tax-payers declared their incomes which they had been concealing during the previous years. Income tax was levied on such incomes at rates applicable during the years

to which the concealed incomes related but to the extent of not exceeding 31% of the aggregate of such incomes if related to more than one assessment year. This head was, therefore, meant to accommodate the arrears of the taxes recovered from those who had concealed their incomes but were liable to pay tax under the Income Tax Act, 1922 and the Business Profits Tax Act, 1947.

No. 12-D.—ACCOUNT of Receipt under Taxes on Income realised under Martial Law Regulation No. 43 as amended by Regulation No. 48 for the year ended 30th June, 1965.

#### V and 5.-Salt.

The Administration of manufacture, supply and distribution of salt has been transferred to the P. I. D. C. with effect from 1st July, 1962. From this date the said Authority is required to maintain his own accounts in such form as may be prescribed by him. The various accounts in the Section will, however, continue to include the transactions relating to the period prior to 1-7-1962. The manner in which these accounts are to be relieved of the progressive Capital outlay on salt works is yet to be decided by the Provincial Governments concerned.

5-A Capital Outlay on Salt Works without the Revenue Account.

# 65.—Capital Outlay on Salt Work outside the Revenue Account.

These major heads record the capital outlay on Salt. The details of Expenditure are shown in Account No. 13-B below.

No. 13-B—ACCOUNTS of Capital Outlay in the Salt Section of the Pakistan Central Excise and Salt Department during and to end of the year 1964-65.

#### VI and 6.—Opium

#### REVENUE AND EXPENDITURE

Under the constitution of 1962 the cultivation of poppy and the production of opium is the responsibility of the Provincial Governments. The revenue under this head is derived from the sales of excise opium powder from Government Opium and Alkaloids Factory, Labore. The

accounts of the above Factory are maintained on Commercial Principles and are included in the Commercial Accounts of Government of West Pakistan.

2. The requirements of opium for Pakistan provinces and States were, partly met by imports of opium from India.

#### VII and 7.-Land Revenue

#### REVENUE

"Land Revenue" is a lovy on agricultural income. It is impossible in a note of this kind to give any sketch of the various land revenue systems in Pakistan. Any adequate description would require a complete volume.

2. Excepting the Province of East Pakistan, the charges for the supply of water from Irrigation canals are consolidated with the land revenue demand. The consolidated rates are in the first instance credited to Land Revenue and an approximate amount calculated as the share due to Irrigation is then transferred to Irrigation Revenue heads (vide deduct entries at foot of Account No. 15). In East Pakistan where a separate water rate is levied, it is credited direct to the Irrigation head.

#### **EXPENDITURE**

3. The expenditure shown under the head 'Charges of Administration' relates chiefly to establishments employed on the collection or administration of land Revenue. The bulk of the expenditure on District Officers, and their estab-

lishments, which prior to 1921-22 was divided between this head and 'Administration of Justice' is now recorded along with the expanditure of headquarters administration under the head 'General Administration'.

- 4. The charges connected with survey and settlement and the maintenance of survey and other lands records form the bulk of the expenditure under this major head. The Survey charges represent the cost of surveys undertaken solely for revenue purposes. The cost of topographical survey carried out by the Survey of Pakistan Department is debited under the head "36—Scientific Departments".
- 5. Of the expenditure directly connected with the collection of land revenue, the most important are the allowances to district and village officers. There are also the charges connected with land revenue assignments and compensations. The former consists chiefly of allegations of revenue to inamdars and other grantees while the latter comprise of pensions granted in lieu of resumed lands, malikana or allowances to excluded proprietors and other minor charges.

## VIII and 8.—Provincial Excise

## REVENUE

The term 'Provincial Excise' in the Government Accounts is applied mainly to the taxation imposed on drugs and intoxicants produced in the country. The excise duties on motor spirit, kerosene, silver, sugar, matches, mechanical lighters, steel ingots, betchuts, tobacco, tea and cloth are credited to 'Central Excise Duties', while the excise duty on Pakistan saft is taken to 'Salt'. Under the head 'Provincial Excise' is recorded the revenue from the excise duty on consumption in Pakistan of (a) alcoholic liquors, (b) optum, hemp and other narcotic drugs and narcotic, non-narcotic drugs and (c) medicinal and toilet preparations containing alcohol or any substance included

in (b). Some excise revenue is also drived from the sale of Vend licences for sale of imported liquor and licences for bottling it and other similar operations. The duty on the importation of liquor from abroad is regulated in accordance with the Customs tariff in force and credited as receipt under 'Customs'.

# EXPENDITURE

2. The expenditure consists mainly of the cost of establishment engaged in the collection of excise revenue and of the cost price of opium supplied to the Provincial Excise Department. A share of the combined Salt and Excise establishment, where such establishment is maintained, is also debited to this head.

A. and AA.—Principal Revenue Heads, etc.

#### IX. and 9.—Stamps

#### REVENUE

Judicial Stamps are used to denote the payments of the duties imposed on Judicial instruments by the Court Fees Act of 1870. All other stamps used to denote the payment of duty, e.g., on leases and mortgages, bills of lading and bills of exchange

are governed by the Stamp Act of 1899, and are termed 'Non-Judicial' Stamps.

## EXPENDITURE

Stamps charges consist mainly of the cost price of stamps and the expenditure incurred upon agencies employed in distributing them.

A. and AA.—Principal Revenue Heads; etc. 979 (Civil) 62.

#### X and 10.—Forest

#### REVENUE

Revenue from Forest may be divided into three main classes:—

- (1) Produce of Government forests.
- (2) Revenue from forests not managed by Government.

This consists of duty on foreign timber and other forest produce, together with revenue from shared and private forests.

(3) Miscellaneous.

The chief item under this head is the proceeds of the sale of confiscated drift and waif wood.

The principal source of revenue is the sale of timber and other produce of Government forests.

#### EXPENDITURE ON REVENUE ACCOUNT

- 2. The expenditure falls under two main heads:
- (1) Conservarcy and works; and
- (2) Establishments.

Revenue expenditure includes, besides working expenses incurred on the production of revenue and on the realisation thereof all charges that are necessary for the maintenance of forests (after they have commenced to yield revenue) up to a proper standard of efficiency, that is to say, the cost of all operations in connection with the conservation and regeneration of forests including the replacing of forest crops by artificial means after harvesting which may be required from year to year to maintain the forests in a state of normal efficiency. Expenditure of a capital nature which is not met from borrowed funds is also brought to account under this head.

3. The head "laterest on Capital" records the interests on capital outlay recorded outside the Revenue Account.

#### CAPITAL EXPENDITURE

# 65-A.—Capital Outlay on Forests outside the Revenue Account.

4. This capital major head is intended for exhibition of expenditure of a capital nature in the Forest Department which is met from borrowed funds is not recognised as such in the regular accounts and is debited initially and finally to the head '10—Forest'.

#### XI and 11.—Registration.

The revenue under this head is derived from fees levied on the registration of documents. The Work of the Department is to be regarded more as a convenience to the public and to Government than as a means of providing the administration funds, as the bulk of the revenue is expected on the cost of administration.

# XII and 12.—Receipts under and Charges on account of Motor Vehicles Acts. REVENUE. EXPENDITURE

The receipts under Motor Vehicles Acts are recorded under this major head. Such receipts when realised in stamps may, at the option of the Provincial Governments, be credited under the head "IX—Stamps" instead of under this head.

2. The charges show: under this head relate chiefly to the establishments employed on the collection of receipts under Motor Vehicles Acts, inspection of motor vehicles and compensations to local bodies, etc. Charges incurred in any Administrative Department of Government are debited to the major head connected with the Department concerned.

#### XII-A.—Taxes and Duties levied in connection with the Rehabilitation of Displaced Persons

This major head has been introduced with effect from the accounts for 1950-51. A special fund for Rehabilitation of displaced persons has been constituted under the provisions of the Supplementary Finance Act, 1950. It is administered by a committee and the amount available in the fund is spent in accordance with the decisions of the committee. The Fund is financed from the new or enhanced taxes levied under the provisions of the Act. An amount equivalent to the receipts booked under the above head is transferred to the head "Fund for Rehabilitation of Displaced Persons" under Section P-Deposits and Advances—

Part H-Deposits not bearing interest, etc. "Other Accounts" monthly by debit to the head "57-Miscellaneous—Block Grant for Transfer to Fund for Rehabilitation of Displaced Persons." Subventions are made from the fund to the Provincial Governments, and Centrally administered areas in the basis of schemes sponsored by them and approved by the Central Government.

Some of the taxes levied under the provisions of the Supplementary Finance Act, 1950 have been provincialised with effect from the accounts for 1956-57.

#### GENERAL NOTE

The Railways in Indo-Pak sub-Continent were either constructed by the Government or by the private Companies. The Government Railway were classified as 'Commercial' and 'Strategie'. Those falling in the latter category were constructed for military reasons and were not always remunerative. The Government Railways were financed either from Central and Provincial Funds or from Famine Relief and Insurance Grant, or from loans forming part of Public Debt of India, or from share capital, debenture and debenture stock raised by the Working Companies. The capital provided by the Working Companies was paid to them on the termination of their contracts.

- 2. The private Companies were provided financial assistance in one form or the other for the construction of Railways. In the beginning, even the management of certain Railways constructed by the Government was entrusted to the private Companies. By the end of 1944-45, the administration of the Railways owned by the private Companies as well as of Government owned Railways managed by the private Companies was taken over by the Government.
- In the Railway Capital Account, the expenditure from all these sources was treated as capital outlay outside the Revenue Account.

- 4. The Railway finances used to form a part of the General Finances of the Central Government but were separated with effect from 1924-25. As a result of this separation, the Railways undertook to pay a definite annual contribution to the general revenues out of the profits, if any accrued from the commercial lines. In order to place the Railway Finances on sound footing, it was also decided to establish a 'Railway Reserve Fund' and a 'Depreciation Reserve Fund'
- 5. The 'Separation Convention' established in 1924-25 was modified with effect from 1st April, 1943, so as to provide for yearly ad hoc contributions from railway surpluses to the Central Revenues.
- 6. At the time of Independence, Bengal Assam and Northern Western Railways were divided between Pakistan and India on the basis of physical location of Railway lines in Pakistan and India. The Hyderabad-Jodhpur Railway (Sind Section) which was owned by the Government but was being worked by the Jodhpur Darbar, fell to the share of Pakistan. Certain branch lines viz Khulra-Bagerhat and Mymensingh-Bharab Bazar Railways, which were located in the areas constituting East Pakistan and which, before Independence were worked by the Bengal-Assam Railways, were also taken over by Pakistan.

- 7. The Partition Council which was set up to conduct and co-ordinate detailed investigation at expert level of various problems arising from the partition of the Lado-Pakistan sub-Continent laid down principles for determining the debt liability of Government of Pakistan to India. It also decided certain principles on which the liability of Pakistan on account of Railways was to be determined. However, so far there has been no decision regarding the over all 'Debt Settlement' between the two countries. In absence of this decision, it has been decided that a figure of Rs. 132.42 crores should provisionally be adopted as the value of railway ssets taken over by the Government of Pakistana on 14-8-1947. Of this figure, a sum of Rs. 4.53 crores representing 'Redumption of Railway liabilities' and Rs. 74 lakks pertaining to Chittagong Port, since transferred to Chittagong Port Trust, have been deducted leaving Capital Outlay of Rs. 88 crores pertaining to P.W. Railway and Rs. 39.15 crores pertaining to P.E. Railway (Total Rs. 127.15 crores).
- 8. At the time of Independence, it was decided that, although, the Pakistan Railways were to continue to work on Commercial lines, the Separation Convention of 1924 as amended from time to time need not continue. The Railway finances were thus merged with the General Finances of the country. With this arrangement the necessity to distinguish between strategic and commercial lines disappeared. Nor was it necessary to continue the Railway Reserve Fund. The Railway Depreciation Reserve Fund was, however, retained and started with a nil balance on 15-8-1946. However, the necessity of separating the railway finances from the general revenues continued to be felt and ultimately in the year 1961-62, the railway finances were separated from general finances of the Central Government in accordance with the following convention:—
  - (i) The Railways pay to the General Revenues a fixed return of 4% in Government Investment in Railways (including investment on strategic lines) at the close of the preceding financial year. The balance of the Railway surpluses is retained for credit to such funds and reserves as are considered necessary.
  - (ii) The interest free loan advanced to the Railways towards meeting the deficit in the Depreciation Reserve Fund was written off and a sum of Rs. 21.78 crores added to the Capital-at-Charge of the Railways.
  - (iii) The Railways pay actual interest charges on all foreign loans including existing foreign loans obtained for them. They are also responsible for repayment of the foreign loans required for rehabilitation and replacement of their assets. The Central Revenues are responsible for the repayment of foreign loans raised for additions and development of the Railways. As and when an instalment of a loan is paid by the General Revenues, the Railways cease to pay interest on the loan to that extent and the amount of the instalment added to the Government investment in Railways, and qualify for 4% return in accordance with Clause (i) above
- 9. The above arrangements had worked barely for a year when the Railways were transferred to the Provinces with effect from 9th June, 1962, under President's Order No. 33 of 1962. Clause 8 of the aforesaid Order provides for the following financial arrangements.—
  - (i) The provisions of the 'Separation Couvention' established in 1961-62 are, until modified by the Provincial Governments,

- to apply mutaris mutandis to regulate the separation of the Railway finances from the General finances of the Provinces, and the Provincial Assemblies, separate Railway Budgets of the estimated receipts and expenditure of the Railways for that year.
- (ii) The Provincial Governments are to pay to the Central Government every year in respect of the Railway transferred to them, a return at the rate of four per cent per annum on the Central Government's investments made upto the 30th June, 1962.
- (iii) Investment in clause (ii) is to include :-
  - (a) the book value of the Railway assets take, over from the Government of India as it stood on the 14th August, 1947, and
  - (b) such expenditure of the Central Government as may have been actually incurred by it up to 30th June, 1962, but may not have been included as investment in the Central Government's accounts up to that date.
- (iv) The Provincial Governments are, as and when due, to pay to the Central Government the actual interest charges on all foreign loans, including foreign loans which existed at the time of the promulgation of the President's Order obtained by the Central Government for the Railways.
- (v) The Central Government are liable for repayment of the principal of such foreign loans or parts of foreign loans as were raised by them on or before 30th June, 1962, or in respect of which negotiations were finalized up to that date for Capital additions to and development of the Railways.
- (vi) As and when an instalment towards repayment of a loan is to be paid by the Central Government, the Provincial Government ceases to pay interest on the loan to that extent.
- (vii) The amount of the instelment paid under clause (vi) by Central Government, as from the date of such payment, is to form part of the Central Government's investment in the railways and the Provincial Governments have to pay to the Central Government a return at the rate of four per cent per annum on the amount so forming part of the Central Government's investment.
- (viii) The Provincial Governments are liable for repayment of the principle of such foreign loans or parts of foreign loans as are raised for linancing other than Capital investment in the Railways.
- (ix) The subscriptions made by the employees to the Defence Saving Provident Fund, the State Railway Provident Fund, and the General Provident Fund, including optional or voluntary subscriptions, and, in the case of the State Railway Provident Fund, the contributions made by the Railways to that Fund continue to remain with the Central Government which is liable to make payment to the employees out of these Funds.
  - (x) The Provincial Governments, as from the first July, 1962 have constituted Provincial Railway Provident Funds which are subscribed by the Railway employees

appointed on or after that date, such subscriptions are credited to the Provincial Governments and those Governments are liable to make payment to their respective employees out of their Funds.

- 10. The Main scheme of those accounts which follow is designed to show:—
  - (a) The Capital Outlay on each Railway (Account No. 23),
  - (b) The Capital Outlay met from Central and Provincial Funds (Account No. 23-C).
  - (c) The net Working Receipts, comprising the Gross Receipts less the expenses of working (Account No. 24).
  - (d) The percentage of (c) on (a) (Account No. 22).
  - (e) The Outgoing in the shape of Interest Charges etc., on the capital expended (Account No. 22 & 26).

- (f) The net gain or loss to Government (Acceput No. 22).
  - (g) The percentage of (f) on (a) (Account No. 22).
  - (h) Tatal loss of gain to Government on Railways after taking into account Miscellaneous Receipts and amount set apart for Railway Improvement Fund (Account No. 22).
  - (i) The balances in the Depreciation Reserve Fund with the Central and Provincial Governments (Account No. 25).
- (j) The balances in the Railway Reserv: Fund with the Central and Provincial Governments,
- (k) The balances in the Improvement Fund with the Central and Provincial Governments. (Account No. 25-A).

No. 22 -STATEMENT of Net Revenue Receipts of Provincial Government Railways for 1964-65 and of the net gain or loss to Government after meeting all expenses against the Net Revenue Receipts.

- 1. The details of earnings and suspense under Gross Receipts represent the gross takings of the Railways. The details of ordinary Working Expenses are given in subsidiary Statement (No. 24-A)

  2. The transactions under "Suspense" consists, in the case of receipts of the difference between (1) the amounts earned but not realissed during the year, and (2) realisation during the year in respect of the outstanding earnings of previous years. In the case of Expenditure "Suspense" records (1) undisbursed liabilities of the year, (2) disbursements in respect of liabilities of previous years, and (3) net amount of miscellansous advances.
- 3. The interest on the balances in the Depreciation Reserve Fund is shown under Miscellaneous Receipts in Account No. 28. The contribution from Railway Revenue to the Depreciation Reserve Fund and the expenditure incurred from that Fund on renewals and replacements are exhibited separately under Working Expenses. The latter being an appropriation from the Depreciation Reserve Fund is deducted to bring out the final debit to Working Expenses.

# Statement of Appropriation to and from the Railway Depreciation Reserve Fund for 1964-65.

This Account sets forth the amounts received into and withdrawn from the Depreciation Reserve Fund during the year, and also brings out the balance in this Fund at the close of the year.

- 2. The Depreciation Reserve Fund was started in Pre-Independence India from 1st April, 1924 to provide for the cost of renewing units of all wasting assets with the exception of formation, fencing and ballast. With effect from the year 1935-36, the amount set aside annually to cover depreciation represented 1/60th of the total capital outlay to end of the previous year. The Fund was ordinarily debited with the cost of units replaced, abandoned or disposed of.
- 3. The procedure in force in the Pre-Independence India after 1935-36 for crediting and debiting
- the Fund is followed by the Pakistan Railways. But contributions to the fund was made at the rate of 1/45 during the year 1955-56 and 1956-57 and 1/30 during the year 1958-59. In the absence of the final figure of Capital Outlay to end of 14th August, 1947 an assumed figure of Rs. 115 crores has been worked out after deducting the provisional figure of the balance in the Depreciation Reserve Fund on 14th August, 1947, from the provisional figure of Capital Outlay on 14th August, 1947. The Fund has, therefore, been started with a nil balance on the 15th August, 1947.
- 4. During the year under review, the contribution of Rs. 6,86,58 thousand was made to the Depreciation Reserve Fund.

#### No. 25-B.—ACCOUNT of Appropriation to Railway Reserve Fund.

The Fund has been created with a view to providing for payment of the annual contribution to the general revenues in lean years, providing for arrears of depreciation, writing down, or writing off of Capital and strengthening the financial position of the Railways in order that the Services rendered to the Public may be improved and the rates reduced.

No. 26.—ACCOUNT of Interest Charges Chargeable against the Net Revenue Receipts of Pakistan Government Railways for the year 1964-65.

The statement shows the liability of Pakistan Railways on account of Interest on their Capital Outlay. During the year 1952-53 a loan of 272 million was obtained from the International Bank for Reconstruction and Development for the rehabilitation of Pakistan Railways. This was treated as specific debt of the Railway and interest charges at 4.5% and commitment charges at the rate of 3% per annum payable to the International Bank of Reconstruction and Development during 1953-54 were entirely met from the Railway Revenues. During the year 1953-54 however, it was decided that the Railways should pay interest at the rate of 3% on their entire Capital outlay irrespective of the fact whether it was met from the International Bank Loan or otherwise.

It has, however, been decided that the Railways should pay interest on the specific debt at the same rate at which it was paid by the Government to the International Bank for Reconstruction and Development. Accordingly interest charges during the year have been collected at 45%.

2. The rate of interest applicable to the debt liability of Pakistan to India has not yet been determined, and it has consequently not been possible to work out the average borrowing rate of Interest of the Government of Pakistan for the year. For purposes of calculating the interest and assumed figure of 115 crores of capital outlay to end of 14th August 1947 has been adopted as the amount of liability of Pakistan has not yet been determined.

Other Revenue Expenditure financed from Ordinary Revenues

The term 'Drainage Works' covers all projects for the relief of waterlogging not directly connected with any particular irrigation system, whether for agricultural or anti-malarial purposes or both. Waterways and embankments are included under this head as being more akin to Irrigation than to Civil Works.

30

29

35

Irrigation etc., Works for which no Capital Accounts

are kept.

Works for

Interest on Capital

Receipts

purpose of accounts, Irrigation For the works are divided into two main categories, those for which it is both desirable and possible to maintain accounts on a quasi-commercial basis and those for which it is either impossible or unnecessary to maintain such accounts either because they. produce little or no revenue or because, owing to their restricted size, it is not worth while examining the returns yielded by each individual works. The first essential for a quasi-commercial account is the maintenance of a capital account, since it is only by reference to the account of capital expended that the value of the results obtained can

be determined. The first broad distinction is therefore between works for which capital accounts are kept and those for which such accounts are not kept.

Works for which capital accounts are kept are further sub-divided into (a) works which are productive and (b) those which are unproductive. Productive Works are works of a remunerative character which are expected to yield, on the expiry of ten years after the date of closure of the construction estimate, a direct return on the capital invested in their construction calculated at such rate of interest as is fixed by the respective. Governments from time to time. Those works which are not expected to yield the required re-turn are classed as unproductive. The classification between productive and unproductive works is, however, dependent on the results of three consecutive years. Thus, if a productive work fails in three successive years to return the prescribed

C. and CC.-Irrigation, etc.

Percentage, it is transferred to the unproductive class, and, conversely an unproductive work may be transferred to the productive class if it succeeded for three consecutive years in satisfying the criterion of productivity. In determining the productivity of an old work developed by Government, the capital expended by Government alone is regarded as the capital on which interest is chargeable.

- 4. The transactions relating to Irrigation Works are exhibited in the accounts as follows:—
  - (1) All capital expenditure upon works for which capital accounts are kept is, as a general rule, recorded in the first instance under a single major head outside the revenue account, the head being divided so as to show (a) Irrigation and (b) Navigation. Embankment and Draingage works, each of these divisions being again sub-divided so as to show in separate subdivisions the capital expenditure on (i) Productive and (ii) Unproductive works. From the total expenditure recorded under this head lump deductions are made of the amounts financed from (i) Ordinary Revenues and (ii) the Relief Fund. The result is that the net total finally recorded under this head represents that portion of the expenditure on the construction of works for which Capital Accounts are kept which is financed outside the Revenue Account. Resources outside the Revenue Account take the form of loans, accumulated cash balances of previous years, the revenue surplus of the year in question after all expenditure debitable to revenue has been met and certain other sources of income not classed as revenue. The capital expenditure incurred upon the several projects and the different sources from which the total expenditure on all projects is financed are set forth in account No. 31.
  - (2) The revenue transactions of works for which capital accounts are kept consist of :—
    - (a) Gross Receipts, including the pertion of Land Revenue due to Irrigation Works (Account No. 30).
    - (b) Working Expenses and Maintenance (Accounts No. 30 and 33), and
    - (c) Interest on Capital (Account No. 30)

The working expenses of works for which capital accounts are kept, which formerly constituted an expenditure head, are shown as a deduct entry under Revenue.

(3) Woks for which no capital accounts are kept and which may appropriately be described as non-commercial works comprise a large number of works, which, while collectively of great importance, are individually too small to make it worthwhile to maintair, separate accounts for each.

Besides the expenditure on these works, there is an other class of expenditure which is recorded under the head "Works for which no capital accounts are kept." This is miscellaneous expenditure on surveys of new irrigation projects, etc., for which a separate division has been provided under the title "Miscellaneous Expenditure". The pensionary charges of the Irrigation Department were previously included under this head, but these charges are now debited to the respective Irrigation heads of accounts.

The receipts and expenditure connected with works for which no capital accounts are kept are exhibited in account Nos. 34 and 35.

- 5. The main scheme of the accounts as exhibited in the Combined Finance and Revenue Accounts is designed to show:—
  - (a) A summary of the general results of Irrigation, Navigation, Embankment and Drainage Works and the net gain or loss to Government (Acacount No. 29).
  - (b) The capital outlay on each project for which Capital Accounts are kept (Account No. 30).
  - (c) Net receipts of such project, comprising the gross receipts less the expenses of working (Account No. 30).
  - (d) Percentage of (c) on (b) (Account No. 30).
  - (e) Interest on capital (Account No. 30).
  - (f) Receipts and expenditure of works for which no capital accounts are kept (Account Nos. 34 and 35).
- 6. When a Provincial Government owing to the fact that loan funds are not available, devotes its general revenues to an object upon which outlay may be met from loans, it is open to that government to include in the objects for which it may trise a subsequent loan the repayment to general revenues of the amount already expended from them. The reason for this provision is clear; it is undesirable that Provincial Governments should be forced into the market at an inopportune time merely to protect their general revenues from being debited with expenditure of a nature which they are not primarily intended to meet. If, therefore, there were in any year a debit to the revenue major head of an amount representing capital expenditure on Irragation Works met from general revenues, and the provincial Government raised a sufficient amount of loan in a subsequent year, it would be permissible for it to utilise part of this loan in recouping the capital expenditure met from general revenues in the previous year. The amount would then be transferred to the capital from the revenue head of account by add and deduct entries in Account No. 31.

7. Under East Pakistan Ordinance No. 1 of 1959, the East Pakistan Water and Power Development Authority was set up for the development and utilisation of the water and power resources of East Pakistan and all the Irrigation Schemes were transferred to the said Authority with effect from 1st July, 1959. From this date the Authority is required to maintain its own accounts in such form as may be prescribed by it.

Accordingly, the Financial Results of Irrigation Schemes have not been worked out. The manner involves the progressive Capital Outlay on Irrigation Schemes is to be relieved has not yet been decided by the Government of East Pakistan.

D. and DD.—Post Offices, Telegraphs and Telephones

# Section D/DD-Post Offices, Telegraph and Telephones Departments Capital and Revenue Accounts.

#### GENERAL

The Posts and Telegraphs and Telephones Departments are run by the Central Government. The finances form part of the Pakistan Revenue.

The Departments are responsible for running (1) Postal system including agency functions like the P. O. Savings Banks, National Savings Certificates, Issue of Broadcast Receiver Licences and the P. O. Life Insurance, (2) Telegraph, (3) Telephone and Radio Communications.

In olden days the only egular means of written communications were the courier services set up by the rulers for their own correspondence. The earliest record of such a service in India was that set up by Muhammad-bin-Tughlind in 14th century. The Moghuis had an excellent courier service, Akbar had post houses built every 10 miles along the main roads for couriers and horses.

This system broke down in the disturbed years of the 18th century, and it was only 1766 that regular system was restored, when Clive established a system of runners for carrying Government mails. In 1837, a public post was established under the control of local Governments, and all prive to posts were abolished. In 1854, the Indian Imperial Post was established.

The telegraph system was started in 1839 by a doctor of the Indian Medical Service whose hobby was telegraphy. In fact the first long line of telegraph in the world was erected in India, when the doctor crected an experimental line 21 miles long.

In 1850, it was decided to extend the telegraph system. Within 10 years 10,000 miles of telegraphic wires had been Iaid, and all the main towns of the Indo Pakistan sub-continent were connected. In 1863, a number of combined Posts and Telegraph Offices were opened, and in 1914 the two departments were amalgamated to form the Posts and Telegraphs Department.

The former Pakistan P. sts and Telegraphs Department was bifurcated on the 1st July, 1962 into two Departments, namely the Pakistan Post Office Department and the Pakistan Telegraph and Telephone Department. From the same date the Telegraph and the Radio Branches were also merged into one Branch to be called the Telegraph (including Radio) Branch of the latter Department. This section includes the Accounts of the aforesaid two Departments. The Postal Department provides postal facilities and the other telecommunication facilities throughout Pakistan, and both of them by their association with communication systems of other countries go to make up the network of communications all over the world.

The accounts of the two Departments are maintained on commercial lines.

#### CAPITAL ACCOUNTS

2. A commercial system of accounts was introduced in the Indian Posts and Telegraphs Department with effect from 1925-26. The Block Account was prepared after valuing the assets then in service, whether originally created out of Revenus or out of Lean Funds, on the basis of their expected lives. Thereafter, Capital is being debited with the cost of construction of new assets. In 1931, the effective lives of the assets as assumed in 1925 were reconsidered and in most cases the periods of effective lives were enhanced. Accordingly, with effect from 1st April, 1933, the

Block Account was reconstituted after revaluing all the assets as on 1st April, 1925 on the basis of valuation as determined in 1931. It was also decided that, in the case of replacement works, the portion representing the excess cost over the original cost should be treated as fresh capital outlay. This was, however, modified with effect from 1st April, 1936, from which date the Renewals Reserve Fund (described in para 3 below) met the cost of all replacements prespective of their being higher or lower than the original cost. On the partition of the country on the 15th August, 1947, the Indian share of Capital Outlay to the end of the pre-partition yerion under each category of assets was worked out in accordance with the percentage fixed by Government.

3. The Departments maintain Capital Accounts which show the value of their assets. The balances in these accounts also represent capital invested by the Central Government in the Departments. The Departments pay interest to the Central Government on the invested capital at the borrowing rate fixed by Government from year to year.

The expenditure on new assets as well as on renewals and replacements of wasting assets is, in the first justance, recorded under the relevant heads pertaining to Capital Outlay of the two Departments. Expenditure on renewals and replacement of wasting assets is, Lowever, subsequently transferred from the Capital Heads to the Renewals Reserve Funds instituted in the Departments as mentioned below. The net interest bearing Capital Outlay is thus arrived at.

On Independence, it was decided that assets of the Indian P & T Department should be divided between Pakistan and India on the basis of their physical location and that for the purposes of financial settlement between the two Governments, Pakistan should be debited with the value of assets taken over by her. The exact liability of Pakistan in respect of the assets taken over by her has not so far been determined.

On the advice of the Application Committee, however, the depreciated value of assets taken over by Pakistan on Independence was adopted as Rs. 3,64,72,866 for the purposes of calculating the amount of interest payable by the Departments to the Central Government.

## RENEWALS RESERVE FUND

4. To meet expenditure on renewals and replacements of wasting assets a Renewals Reserve Fund, has been instituted. The fund is built up by contributions from the revenues of the Departments. The Departments receive interest on their accumulations in this Fund. Pakistan was entitled to a share of the balance at the credit of the Renewals Reserve Fund on the 15th August, 1947. This was, however, not transferred by India. The Renewals Reserve Fund, therefore, started with a nil balance in Pakistan. During 1962-63 the contribution made to the Renewals Reserve Fund by Telegraph and Telephone Department was Rs. 1,74,20,000.

## REVENUE ACCOUNTS

5 The general plan of Revenue Accounts in the Departments is such that the final results of the working of the Departments each year are brought out in a Profit and Loss Account. For the Telegraph and Telephone Department a Profit and Loss Account for the two branches viz. Telegraphs and Telephones is also prepared.

The Department rec ive a rebate or pay a surcharge as the case may be in respect of the net profit or loss on their working as determined by the Accounts. The amount of rebate or surcharge is calculated on the ascertained accumulated profit or loss of the Departments to the end of the previous year.

As Pakistan's share of the accumulated profits relating to pre-Independence period was not transferred by India, the accounts of accumulated profits of the P & T Department in Pakistan did not show any opening balance on the 15th August, 1947.

#### SOURCES OF REVENUE

6. The major portion of the receipts of the Pakistan Post Office Department is derived from the sale of Postage Stamps. The other important items of revenue of this Department are commission

Money Orders and the share of the Post Office in the fees for Broadcasting Receiver Licenses.

In the Pakistan Telegraph and Telephone Department revenue is mainly earned from the subscribers of telephones on account of rent and local as well as trunk call fees. The other important sources of income of this Department are charges realised for inland and overseas telegrams and rent of lines and wires leased to Railways and Cauals.

## WORKING EXPENSES

7. In both the Departments the Working Expenses are mainly incurred on establishments, Conveyance of mails in the Post Office Department and maintenance of Telegraph and Telephone lines and of Telephone Exchanges and Witeless Station in the Telegraph and Telephone Department are the other principal items of expenditure

		Total		76,71,00,801	76,24,69,461

This Section deals with the receipts and charges connected with the services of the Public Debt of the Central and Provincial Governments and with unfunded obligations of the several governments in Pakistan.

#### XX.-Interest.

The chief sources of the revenue adjusted under this head are the payments made by public bodies and individuals on account of interest on loans and advances by the Central and Provincial Governments and from investments of their cash balances and recoveries of interest from the Provincial Governments on the loans and advances made to them by the Central Government. It has also been decided by the Central Government that, as a temporary expedient, the interest on

the Capital Outley on Railways, Posts and Telegraphs, Irrigation and other Commercial Services charged to those Departments services, should be credited to this head. See Note on Account No. 26 in Sections B and BB.

2. The interest on Irrigation Capital Outlay incurred before 1st April, 1937 in East Pakistan is also credited to this head: See paragraph 5 of the note on "22-Interest on Debt and other obligations" on Page 83.

E. Debt Services.

## Interest on Debt and Other Obligations.

The expenditure under this major head is classified under the following main divisions:

- Interest on Ordinary Debt.
- Interest on Unfunded Debt
- Interest on Other Obligations.
- -Transfers.
- 1. Under the head "Interest on Ordinary Debt" are recorded all cash payments on account of interest on permanent, temporary and floating loans of the Central and Provincial Governments, including in the case of Provincial Governments, payment of interest on the loans from the Central Government. Adjustment of discount on loans, such por-tion of discount on Treasury Bills as has accrued during the year, and charges connected with the management of debt are also brought to account under this head.
- In the case of debt liability of Pakistan to India it has been decided by the Partition Council that the rate of interest should be determind on the average yield over a period of two years preceding the date of partition of the rapes and sterling securities with an unexpired currency of 15 years or over rounded to the nearest one-eighth of over per cent. This rate has not yet been fixed. The first payment of interest to India fell due on the 15th August, 1952, as decided by the Partition Council; see also para. 15 of the Introductory note.
- Under the head Interest on Unfunded Debt' are recorded payments of interest on funds deposited with Government for special purposes. They fall under the following main classes:—

- (i) Deposits in Post Office Savings Bank and Certificates.
- (ii) Deposits of various Provident Funds estab. lished by the several Governments for the benefit of their employees.
- (iii) Special Loans:—Under this head are classified endowments for specific purposes of religious or charitable character accepted by Government from private persons.
- The head "Interest on Other Obligations" records payments of interest on certain special funds, e.g., the Railway Depreciation Reserve Fund and Depreciation Reserve and other Reserve Funds of other Commercial Departments and Undertak-
- The amount of interest transferred to Irrigation and other Commercial services on the Capital Outlay incurred on them by the Provincial Govern-Outlay incurred on them by the Provincial Government, is adjusted under the division "Transfers" in their accounts. In case of the Central Government, however, the interest charged to Railways, Posts and Telegraphs, Irrigation and other Commercial services is credited to the head "XX—Interest", vide note on page 82. In the case of East Pakistan also, the interest on Irrigation Capital Outlay incurred before 1st April. 1937 and charged to Irrigation accounts is also credited to that head "XX—Interest", the reason being that under the scheme for the decentralisation of balances and the cancellation and consolidation of Provincial Governcancellation and consolidation of Provincial Governments debt, no debt corresponding to the Capital invested was outstanding in the Province of Bengal on 31st March, 1937 and no interest is, therefore, paid by East Pakisten Government to the Central Government on this account.

# 23.—Appropriation for Reduction or Avoidance of Debt.

This head is intended for the record of appropriation from revenue for redemption of debt of the Central and Provincial Governments. The amounts debited to the minor head Sinking Fund' represent specific appropriations for regularly constituted Sinking Funds or Depreciation Funds for the redemption of loans raised by the Central and Provincial Governments, and the amounts debited to the minor head 'Other Appropriations' represent appropriations for reduction or avoidance of debt otherwise thereby means of regularly constituted Sinking Funds. The amounts

are debited to these minor heads by per contraoredit to the same minor heads under the Deposit head. "Appropriation for Reduction or Avoidance of Debt". The minor head Sinking Funds in the Daposit Section is debited with charges connected with the redemption of debt either by purchase and cancellation of securities or by direct discharge. On actual cancellation of Stock the nominal value of the cancelled securities is written off the Public Debt Account, The application of the balances of the Stocking Funds in 1964-65 is shown in Account No. 99.

No. 42.—Account showing the Appropriations from Revenue during the year ended 30th June, 1965, for Reduction or Avoidance of Debt of the Central and Provincial Governments.

## Section F.-Civil Administration.

The major heads grouped in this Section deal chiefly with the salaries and expenses of the various departments constituting the Civil Administration of the country. The receipts of these de-

partments are comparatively insignificant and are in most cases merely recoveries of expenditure. The nature of the expenditure is explained in the explanatory notes under each of the major heads.

## Section FF.—Civil Administration.

# Capital Accounts within the Revenue Account. Capital Accounts outside the Revenue Account.

The expenditure brought to account in the Section relates to capital outlay incurred by the Central and Provincial Governments on measures connected with the Improvement of Public Health,

schemes of Agricultural Improvement and Research, Industrial Department, Lighthouses and Lightships, Civil Aviation and Broadcasting.

## 25.—General Administration.

The expenditure recorded under this head relates chiefly to headquarters administration and also to the cost of district administration. The salaries and other allowances of the President, of Heads of Provinces and of Ministers; the expenses connected with the National Assembly and Provincial Assembly; and the expenditure on account of the Secretariats, Boards of Revenue.

Commissioners, District Officers and their establishments constitute the main items of expenditure under this head in Pakistan.

2. The expenditure relating to village establishment in West Pakistan is also recorded under this head.

## 26. —Audit

The salaries, cost of establishments and other expenses of the Comptroller and Auditor-General of Pakistan and of the various Account Officers who audit and account for civil transactions are shown under this head.

2. The expenditure on account of the Director of Audit. Defence Services is recorded under this head, while the cost of maintenance of Defence Services Accounts is treated as a charge against the Defence Budget. The cost of the combined

Audit and Accounts offices relating to Post and Telegraphs Department, the expenditure relating to the audit of the Railway accounts as well as of the establishment employed on the audit undertaken by the Auditor-General on consent basis, e.g. audit of Local Funds, etc. are recorded initially under this head and the recoveries in that connection from the Departments, Provincial Governments etc., are accounted for by means of deduct entries under this head.

No. 44 - ACCOUNT of Expenditure of the Audit Department for the year ended 30th June, 1965.

F. and FF.—Civil Administration

# XXI and 27.—Administration of Justice.

## REVENUE

The bulk of the revenue under this head accrues from "General fees, fines and forfeitures" which consists chiefly of receipts from fines and confiscations ordered by magisterial courts.

# EXPENDITURE

The expenditure consists chiefly of the pay of judges of civil and criminal courts and of magistrates and their establishments, with some charges on account of Administrators General and Law Officers of the several Provincial Governments.

The variations, as between different Provinces, in expenditure upon criminal courts are due to the fact that full-time judicial establishments alone are recorded under this head. The magisterial work in the various Provinces is largely performed by the ordinary district administrative staff, the cost of which is debited to "25-General Administration". In West Pakistan, however, a fixed amount is annually transferred from the head "25-General Administration" to the head '27-Administration of Justice'.

# XXII and 28.—Jails and Convict Settlements.

## REVENUE

The principal item of revenue is the proceeds of the sale of jail manufactures which are, however, largely counterbalanced by the expenditure involved in their production.

## **EXPENDITURE**

The expenditure cosists mainly of the maintenance charges of the iail population and the cost of production of jail manufactures, together with the pay and allowances of the necessary establishments.

No. 46.—ACCOUNT of Receipts under Jails and Convict Settlements for the year ended 30th June, 1965.

## REVENUE

Compared with expenditure, the receipts are insignificant and consist mostly of (i) recoveries of expenditure on special police and (ii) fees

levied for services controlled by the Police Department, such as receipt under the Public Conveyance Act, etc.

# EXPENDITURE

- 2. The bulk of the expenditure is on account of the police force and its supervision.
- 3. The expenses in connection with "Order" police are recovered from the Railway Department.
- 4. The expenditure on account of the Criminal Investigation Department is also included under this head.

# XXV and 31.—Lighthouses and Lightships

The accounts of the Lighthouses administration are required to be maintained on commercial lines on all-Pakistan basis within the Government accounts. This is necessary to ascertain whether the Lighthouses administration is self-supporting. For this purpose, the Government accounts exhibit capital expenditure, indirect charges such as those for depreciation of fixed assets, interest on capital and cost of accounts and audit. The accounts also show necessary reserves and pensionary liability in addition to the ordinary running expenses and annual maintenance. A separate income and expenditure account and balance sheet in commercial form are prepared from the Government accounts at the end of each year, and any surplus on the income and

expenditure account of each year is transferred to a General Reserve Fund which is also debited with any deficiencies on the same account. Any large surplus in the Fund is utilised to finance new capital expenditure on Lighthouses and Lightships. These accounts appear in the Commercial Appendix to the Appropriation Accounts of the Central Government (Civil).

#### 74. - Capital Outlay on Lighthouses and Lightships

This account shows the total capital invested on Lighthouses and Lightships during and to end of each year and the different sources from which the expenditure has been financed. No. 49.—ACCOUNT of Receipts from Lighthouses and Lightships for the year ended 30th June, 1965.

### XXV-A and 34.—Frontier Regions

#### REVENUE

This receipt major head was introduced in the year 1955-56 to accommodate receipts relating mainly to Toll fees on Khyber Road and other receipts in the Frontier Regions which were previously shown under the head "XLVI—Miscellaneous."

#### **EXPENDITURE**

This Expenditure major head accommodates (i) charges connected with the ordinary civil administration of the frontier areas including expenditure on buildings and communications, and

(ii) charges to civil estimates, directly connected with the protection of the various frontiers, which include besides expenditure incurred on various denominations of military police organisations, expenditure on road declared to be of military importance and charges for hospitals and other buildings required for the administration of the military forces. Charges unconnected with the ordinary civil administration of the frontier areas, e.g., Customs, Provincial Excise, etc., are brought to account under the appropriate heads of service concerned.

#### XXVI and 37.—Education. REVENUE

The bulk of the revenue is derived from school and college fees. The revenue, however, is

insignificant as compared with the expenditure.

#### **EXPENDITURE**

- 2. The expenditure recorded under this head is that controlled by the Education Department. Certain classes of education, e.g., medical, industrial, agricultural, are controlled by the respective departments administering those subjects and the expenditure on that account is included in their budgets.
- 3. The basis of the division of education into 'University', 'Secondary', Primary' and 'Special' is the classification of each school or college according to the grade of education which it is primarily intended to impart. Thus, the expenditure on a school may be classified as 'Secondary' even though it includes primary classes. In East Pakistan, however, grants to schools which impart primary as well as secondary (or special) education are divided into grants on account of Primary and Secondary (or Special) education and classified as such in the accounts.
- 4. The sub-head "University" includes the expenditure on collegiate education, both literary

- and Professional. In Provinces ir which the Intermediate classes have been separated from the Universities, the charges in respect of these classes are shown under "Secondary". The term 'Special' includes professional schools and reformatory schools where such schools are controlled by the Education Department.
- 5. The expenditure under each of the four main sub-heads includes both direct and indirect expenditure, the latter consisting of grants-in-aid by Government to private and local fund schools. The term 'General Expenditure' includes expenditure common to all kinds of education such as Direction and Inspection, and also miscellaneous expenditure.
- 6. Expenditure on educational buildings constructed by Government is generally debited under the Public works head, '50—Civil works' and not under this head, except where such buildings are formally assigned to the Education Department for execution of works or for maintenance.

# XXVII and 38.—Medical

#### REVENUE

The receipts are small and are made up of ordinary and mental hospital. Some amounts are fees paid by students in medical schools and also realised from contributions by the public or by colleges and recoveries from paying patients in individual benefactors.

#### EXPENDITURE

2. The maintenance of Government hospitals and dispensaries, together with the grants paid to private and Local Fund hospitals, is the most to private and Local Fund hospitals, is the most costly item of expenditure and is included under the head 'Hospitals and Dispensaries'. Next in importance is the pay of "Medical Establishment" which includes all superintending and other civil medical establishments not specifically attached to hospitals. Charges of medical schools and colleges, mental hospitals, Chemical Examiners,

and certain miscellaneous grants for medical pur-poses (such as that made to the Countess of Dufferin's Fund) constitute the rest of the Expendi-

3. Charges on account of medical buildings are generally shown under "50—Civil Works", except those relating to buildings the construction or maintenance of which has been formally assigned to the Medical Department.

No. 56.—ACCOUNT of the Receipts of Medical Department for the year ended 31th June, 1965.

#### XXVIII and 39—Public Health REVENUE

Sale-Proceeds of Sera and Vaccines form the most important mems of receipts under this head.

EXPENDITURE WITHIN REVENUE ACCOUNT

2. Grants for Public Health purposes constitute one of the important frems of expenditure under this head. These include contributions to Local Bodies for the employment of Health Officers and for the development of sanitation (water supply and drainage schemes and the like), and grants to special health organisations, such as the St. John's Ambulance Fund. Expenses of combating

chidemic diseases like plague, malatia and cholers and in connection with bacteriological laboratories and Pasteur Institutes, together with the cost of supervising establishments and sanitary works controlled and executed by the Sanitary Engineers, make up the bulk of the remaining expenditure.

#### XXIX and 40.—Agriculture

#### REVENUE

Agricultural receipts are derived mainly from the experimental farms established by Government and from botanical and other public gardens. Agricultural education, which also is dealt with under this head, contributes a small income in the shape of fees.

# EXPENDITURE WITHIN THE REVENUE ACCOUNT

2. Under 'Agriculture' are included the cost of the Agricultural Department, the various agricultural experiments conducted by experts, experimental and model farms established by Government for improving agricultural methods, agricultural education and certain other miscellaneous expenditure. The expenditure connected with the development of co-operative credit among agriculturists is shown under a separate

major head 'Co-operation'. See also para. 2 of the note on '41.—Veterinary' on page 117.

3. Accounts of a commercial nature are maintained for certain concerns controlled by the Agricultural Department and annual trading and profit and loss account and balance sheets appear in the Appendix to the Appropriation Accounts of the Central Government (Civil) containing accounts and reviews of Government commercial concerns.

# EXPENDITURE OUTSIDE THE REVENUE ACCOUNT

71.—CAPITAL OUTLAY on Schemes of Agricultural Improvement and Research.

4. This head records the expenditure of a capital nature financed from borrowed fund in connection with projects of agricultural improvement and research.

No. 58.—ACCOUNT of Receipts under Agriculture during the year ended 30th June, 1965.

#### XXX and 41.—Veterinary

#### REVENUE

The Veterinary College and School fees constitute the bulk of the Veterinary receipts.

#### EXPENDITURE

2. The expenditure consists mainly of the cost of the Civil Veterinary Department, veterinary education, the expenditure on the maintenance of veterinary hospital and dispensaries and of breeding operations. Charges for breeding operations

in the Province of East Pakistan in which cattle, sheep and poultry breeding is under the control of the Agricultural Department are, however, accounted for under '40-Agriculture'.

#### XXXII and 43.—Industries

The bulk of the transactions recorded under these heads relates to regular industries conducted by Government and industrial education:

#### Capital Expenditure

43-A Capital Outlay on Industrial Development within the Revenue Account.

72-Capital Outlay on Industrial Development outside the Revenue Account.

These capital major heads exhibit the capital outlay on certain Industrial Development Schemes undertaken by the Central and Provincial Governments. All expenditure of a capital nature is recorded in the first instance under the head "72—Capital Outlay on Industrial Development outside the Revenue Account." and any expenditure which a Government may decide to meet from revenue is deducted from the total expenditure recorded under this head and transferred to the head "43-A— Capital Outlay on Industrial Development within the Revenue Account?

### XXXIII and 44.—Aviation.

Receipts and Expenditure in connection with Civ.l Aviation appear under these heads. Military aviation is dealt with under 'Defence Services' Expenditure connected with the Aerial Mail Service is taken to Posts and Telegraphs'. Expenditure on buildings, aerodromes, landing grounds and other works connected with civil aviation in

Pakistan, of which the administrative control has been transferred from the Public Works Department to the Director of Civil Aviation, is recorded under this head. The charges debited to the head "Special Services and Miscellaneous Expenditure" include payments to Posts and Telegraph Department for wireless services.

#### CAPITAL EXPENDITURE

44-A-CAPITAL Outlay on Civil Aviation within the Revenue Account

72-A.—CAPITAL Outlay on Aviation outside the Revenue Account.

These capital major heads have been opened in the accounts for exhibition of the capital expenditure incurred on the development of civil aviation.

All works expenditure which, under the Allocation Rules applicable to this Department is debitable to capital, is recorded in the first instance under the major head "72-A.—Capital Outlay on Civil Aviation outside the Revenue Account," and at the end of the year any expenditure which the Government concerned may decide to meet from revenue is deducted in lump from the total expenditure recorded under this head and transferred to the major head "44-A.—Capital Outlay on Civil Aviation within the Revenue Account".

(a) Does not include Expenditure to end of the 14th August, 1947 which has not yet been determined. F. and FF.—Civil Administration

# XXXV and 46.—Department of Supply and Development.

The Department has been constituted in order to effect economical purchases of store in Pakistan or abroad on behalf of all Departments of the Cantral Government and Local Administrations, as well as of such Provincial Governments, Port Trusts, Corporations and Municipalities and similar quasi-public bodies as might desire to avail themselves of the services. It also undertakes the inspection of stores purchased by various Departments of Government and Railways direct. It holds no stocks of stores of any kind. On receipt of an indent supply is arranged for either by placing separate orders for the stores with firms in

Pakistan or abroad or by combining the demand, with others for compliance under a running or 'rate' contract. The Department levies a charge of 1 per cent, for purchase and 1 per cent, for inspection or 2 per cent, in all on the total cost of orders placed through its agency. In the case of inspections and tests of stores not purchased through this Department it levie inspection and testing fees at the rate or rates prescribed by the Central Government. The Department also encourages and renders assistance to Pakistan Industries both directly by way of advice to manufacturers and by assisting them to find markets for their products.

#### Section G.—Currency and Mint.

This Section brings together in one place the financial operations connected with the currency policy of the Government of Pakistan.

#### Section GG.—Currency and Mint.

This Section includes the capital major head—"77 Currency Capital Account outside the Revenue Account" and "77 A-Capital Outlay on Mint outside the Revenue Account".

#### XXXVII and 48.—Currency.

These two major Heads record the various transactions relating to the Currency Operations. Most of the functions in this connection including inter alia the management of the note issue and the reserve against the note issue are performed by the State Bank of Pakistan.

#### CAPITAL EXPENDITURE

# 77.—CURRENCY CAPITAL ACCOUNT OUTSIDE THE REVENUE ACCOUNT.

This capital major head records Government Investment in the share Capital of the Pakistan Security Printing Corporation. It also records the payment of Government's share of the Capital of the State Bank of Pakistan and payments towards the State Bank of Pakistan Reserve Fund, Purchase of share of International Bank, Payment of subscription of International Monetary Fund and special payment of State Bank of Pakistan.

No. 67.—ACCOUNT of Receipts of the Currency Operation for the year ended 30th June, 1965.

#### XXXVIII and 49.—Mint

#### **GENERAL**

The Mint in Pakistan is at Lahore.

In the undivided India, the mints produced for circulation, silver, bronze, nickel and quarternary coins. The entire coinage was a token coinage circulating at a value higher than the intrinsic value of the metal contained therein. Government, therefore made a profit on its coining operations. The coinage of silver coins was stopped from 1922-23 and that of quarernary coins, both rupees and small coins was undertaken from 1940-41. The revenue account received credit for a part of the profits on bronze and nickel coinage under the head 'Mint'. The entire profit on quaternary coins was taken to the suspense head "Purchases and Sales of Silver" under the same Section.

The question of allocation of the profits on Pakistan small coins passed into circulation as also that of accounting of the profits or Pakistan Nickel Rupees passed into circulation has not yet been decided.

The balance sheet and profit and less account of the Lahore Mint appear in the Mint Administration Repert.

#### REVENUE

Profits on circulation of nickel, bronze and copper coins—In the undivided India, the profits on the net amounts of nickel, bronze and copper coins passed into circulation during any year less the net loss on the sale of metal and destruction of old coins and the share phyable to the Government of Burma under the provisions of paragraph 4(2) Part IV of the India and Burma (Burma Monetary Arrangements) Order, 1937, were credited to "P-Deposits and Advances Part IV—Suspense—Suspense Accounts", and an amount which would provide a net sum of Rs. 45 lakks over and above the net expenditure on the Mints, was transferred therefrom to Revenue each year. The process of accounting by which these profits were calculated was set forth in a statament showing the Appropriation of profit on the circulation of Bronze, Copper and Nickel coins.

Under section 2 of Part IV of the Pakistan Monetary System and Reserve Bank Order, 1947 as amended by the Pakistan Monetary System. and Reserve Bank (Amendment) Order, 1948, Government of India should pay to the Government of Pakistan in respect of the period commencing on the 15th August, 1947 and ending on the 30th June, 1948 the profit, as calculated by the Comptroller and Auditor General of India, on the net amount of India subsidiary coins which were actually passed into circulation in Pakistan during that period less the loss, as calculated by the Comptroller and Auditor General of India, on the destruction of any India subsidiary coins returned from Pakistan during that period and destroyed as not being fit for re-issue. But, should any subsidiary coins return from circulation in Pakistan during the period from 15th August, 1947 to 30th June, 1948, exceed the amount of India subsidiary chins actually passed into circulation in Pakistan during that period, the Government of Pakistan should pay to the Government of India, the loss attributable to that fact as calculated by the Comptroller and Auditor General of India together with the loss, as calculated by him. on the destruction of any India subsidiary coins returned from Pakistan during that period and destroyed as not being fit for re-issue. The not profit or loss attributable to the Government of Pakistan has not yet been worked out by the Comptroller and Auditor General of India.

Pakistan Bronze Nickel coins including Nickel rupee were put into circulation during the year 1948-49.

India coins of the denomination of one pie which continued to be legal tender upto 31-3-1954 ceased to be so with effect from 1st April, 1954 same at the issue Department of the State Brnk of Pakistan at Karachi, Dacca and Peshawar until further nefice. It continued to be legal tender at Government treasuries till the 30th June, 1959.

# Section H.—Civil Works and Miscellaneous Public Improvements Financed from Ordinary Revenues.

The expenditure brought to account in this Section relates to the cost of buildings, communications and other works where this is met from ordinary revenues. The outlay on such buildings and roads projects and allied works of permanent public utility as are definitely recognised as a charge against capital is dealt within Section, HH.

# XXXIX and 50—Civil Works Financed from Ordinary Revenues.

Buildings and Communications in the Civil Department are classified as "Civil Works" in contradistinction to "Defence works" the term applied to similar works connected with the Defence Services.

2. The outlay on buildings, etc., is treated as Public Works expenditure if the administration of the work rests with the officers of the Public Works Department, and as expenditure of the Civil Department using or requiring them if the administration of the work has been transferred by competent authority from the Public Works Department to that Department. Where, however works, the administration of which has not been transferred from the Public Works Department, are by mutual errangement executed by another department on behalf of the Public Works Department, the expenditure in connection with them is debited to Public Works grants.

#### REVENUE

 The receipts are comparatively small and are classified under descriptive heads in Account No. 70 which do not call for detailed explanation.

#### EXPENDITURE

4. In the undivided India prior to 1940-41, the Previncial Governments used to execute works not only on their own behalf but on behalf of the Central Government also; and the revenue and expenditure connected with such works were accounted for directly in the Central section of the major heads "XXXIX and 50—Civil Works". Subsequently, with effect from 1st April 1940, in the former Bengal and Sind, and from 1st April 1941, in the former Punjab, Central Civil Works were transferred to the Central Public Works were transferred to the Central Public Works Department and were accounted for by Accountant General, Central Revenues, under the above heads. This procedure has been continued in Pakistan where the experditure on Central Civil Works is accounted for in the books of the Accountant General, Pakistan Revenues. In a few cases, however, such as works executed in the

Frontier Regions or on behalf of the Military Engineer Services which have a separate budget, the Railway and the Posts and Telegraphs Departments, which are commercial departments, and the Archaeological Department in respect of works on ancient monuments, or where the buildings have been transferred to departmental control, the receipts and expenditure are recorded under the major heads relating to the Departments concerned.

- 5. The particulars of expenditure on buildings and communications constructed by the Public Works Department are exhibited in Detailed Accounts Nos. 70-A and 70-B. Expenditure upon each of these classes is sub-divided into outlay on 'Original Works' and on 'Repairs'. Under the former is included all new constructions, whether of entirely new works or of alterations and additions to existing works, as well as repairs to newly purchased or previously abandoned buildings which may be necessary before they can be brought into use. It also includes all substitution of one variety of work for another such as that of a tiled for a thatched roof to a building, where the new work represents a genuine increase in the permanent value of the property as an asset. The sub-head 'Repairs' covers all operations, other than new works which are necessary in order to maintain in proper condition works which are in ordinary use.
- Tools and Plant' is recorded under separate subheads for the Civil works as a whole. The recorded expenditure is a rough approximation only, as Public Works establishments are generally joint establishments employed on works accounted for under two or more heads of account. The establishment expenditure of a Public Works division or office is in the first instance recorded under the single major head under which the division or office is classified for the purpose. Recoveries are effected at prescribed rates from other departments, etc., when the cost of the work is debitable to those departments, or to other Governments or Local Bodies in respect of works executed on their behalf; the residual amount being distributed at the end of the year amongst the various accounts which record the expenditure of the Public Works Department, generally in proportion to the works expenditure under each head affected. Any special establishment which is wholly employed on a work is, however, entirely debited to that work and is not included in these calculations. Similarly the cost of purely revenue establishments employed entirely on the management of irrigation or navigation works and the like or on the assessment, etc., of connected revenue, is debited direct to Irrigation revenue account.

Similar remarks apply to the expenditure on account of ordinary Tools and Plant used in the Public Works Department. The Cost of special Tools and Plant, by which is meant tools, plant or machinery obtained to meet the special requirements of a particular work or project, is treated as a direct debit to the work or project concerned.

- 7. The expenditure under 'Grant-in-aid' represent contributions given to Local Bodies for construction of buildings, communications and allied works of lasting public utility.
- 8. The head "Block grant for transfer to Central Road Fund" records the annual lump-sum grant from Pakistan Revenues to the Central Road Fund (See Explanatory Note to Account No. 102 on

page 194. Subventions are made from this Fund to Provincial Governments, Local Administrations and acceding States for expenditure on schemes of road development (See Note on page 194). The actual expenditure on the construction of new roads and birdges or reconstruction or substantial improvement of existing roads and bridges financed from these subventions by the Provincial Governments is included in Account No. 70-B, a corresponding amount being shown as revenue receipt of the Provincial Governments in Account No. 70. A similar procedure of accounting is also followed in the case of subventions from the Fund for expenditure in areas under the administration of the Central Government, with the difference that the amount corresponding to the expenditure financed from these subventions is taken in reduction of expenditure in Account No. 70-A.

		Total		56 70 45 628

The capital major heads included in this Section are:

#### Outside the Revenue Account

- (1) 78—Initial Expenditure on New Federal Capital.
  - (2) 80—Town Development Schemes.
- (3) 81—Civil Works outside the Revenue Account.

#### Within the Revenue Account

- (4) 50—Capital Outlay on Civil Works met out of Extraodinary Receipts.
- 2. The expenditure falling under items (1), (2) & (3) relates to special capital projects buildings, communications or allied works of lasting public utility, undertaken by the Central Government or the Previncial Governments from resources outside the Revenue Account. The essential condition precedent to opening of a capital major head outside the Revenue Account is that the expenditure must be of a capital nature under the ordinary principles of accounting.

The head referred to at item (4) above was introduced in the Punjab during the prepartition

days as the Provincial Government decided to meet a portion of the capital expenditure recorded under the head '81—Civil Works outside the Revenue Account" from heavy extraordinary receipts which had accrued. The amount met from those receipts was transferred to the head "50—A" within the Revenue Section of the accounts.

#### 78. Initial Expenditure on New Federal Capital

This Capital Major head was opened with effect from the year 1950-51 for recording the initial expenditure on the Federal Capital at Karachi. However with the shifting of the Capital from Karachi to Islemabad, it was utilised from 1959-60 to record expenditure on the planoing and development of the New Federal Capital at Islamabad which was entrusted to the Federal Capital at Islamabad which was entrusted to the Federal Capital Commission who actually incurred the expenditure during that year. The Commission was from 14th June 1960 replaced by an Autono mous Body, viz., "Capital Development Authority" which will meet the expenditure from its own fund and as such details of expenditure will not enter Government Accounts from the year 1960-61 except any loans and grants made by the Government to that Authority.

No. 72—ACCOUNT of Initial Expenditure on New Federal Capital at Korachi and Islamabad during and to end of the year 1964-65.

#### 81-Civil Works outside the Revenue Account

This account sets forth the expenditure on the various Capital projects falling under the general heading of buildings and communications, undertaken by Central and Provincial Gevernments. The Outley on Civil Works met from Ordinary Revenues is brought to account under Section "H".

The procedure of accounting followed in the case of expenditure on schemes of road developments and other allied objects financed from the

subventions from the Central Road Fund is explained in the Note on "XXXIX/50—Civil Works financed from Ordinary Revenues" on page 130. In the rare case of the expenditure on a road project in any Province being financed partly out of loan and partly out of subvention from the Central Road Fund, the portion of the expenditure met from the latter source is transferred by a deduct entry under "81—Civil Works outside the Revenue Account" to the head "50 Civil Works".

Capital Outlay on Electricity Schemes outside the Revenue Account	76-A	Expenditure	146		()1,71,60 034

The major heads comprised in these Sections are:—

#### I. Revenue Account-

- (1) XLI-Receipts from Electricity Schemes.
- (2) 52—Laterest on Capital Outlay on Electricity Schemes.
- (3) 52-A—Other Revenue Expenditure connected with Electricity Schemes.

#### II. Capital Account-

- (4) 53—Capital Outlay on Electricity Schemes within the Revenue. Account.
- (5) 81-A-Capital Outlay on Efectricity Schemes. outside the Revenue Account.
- 2. The head 'XLT' records the revenue seceipts and working expenses (detailed in Account No. 75-A) of the various Hydro-Electric, Thermo-Electric and Grid Sub-Station Schemes as and when they begin to earn revenue and regular revenue accounts are opened for them (Account No. 75).
- 3. Under the head 52° are recorded the interest charges on the Capital expenditure on Electricity Schemes (Account No. 75) while the charges

in connection with preliminary surveys and other miscellaneous expenditure connected with Electricity Schemes, including headquarter charges of the Electricity Departments, are brought to account under the major head "52-A—Other Revenue Expenditure connected with Electricity Schemes" (Account No. 76).

- 4. The capital major heads record the capital expanditure on Hydro-Electric and Grid Sub-station Schemes undertaken by the various Governments in Pakistan. All expenditure both within and cut-side the Revenue Account is recorded in Account No. 76-A and the expenditure financed from Ordinary Revenue is deducted from the total expenditure, leaving the net expenditure outside the Revenue Account.
- 5. The Electricity Schemes in West Pakistan and East Pakistan have been transferred to the West Pakistan Water and Power Development Authorities East Pakistan Water and Power Development Authority with effect from 1st April, 1959 and 1st February 1960 respectively. From these dates, the said Authorities are required to maintain their own accounts in such form as may be prescribed by them. The various accounts in the Section will, however, continue to include the transactions relating to pre-WAPDA period. The manner in which these accounts are to be relieved of the progressive Capital Outlay on Electricity Schemes (Account No. 76-A) is yet to be decided by the Provincial Governments concerned.

#### Section J.-Miscellaneous

This Section cover all miscellaneous receipts and expenditure in the Civil Department, which are not directly attributable to any regularly constituted Department of Government. It also includes expenditure under Relief measure and loss or gain by exchange in respect of sterling transactions pertaining to all Revenue and Service Heads other than those relating to Defence Services, Railways, Posts and Telegraphs, Capital and Commercial Departments. The residual balance of exchange adjustment of each year is transferred to this section; see Note on page 200.

#### Section JJ .- Miscellaneous

This Section includes the capital major heads:

- "82—Capital Accounts of Other Works outside the Revenue Account."
- "83.—Payments of Commuted Value of Pensions."
- "83-A—Purchase of Annuity for Payment of Sterling Pensions."
- "84-Capital Outlay on Printing Presses" and
- "85-A—Capital Outlay on Provincial Schemes of State Trading."

#### A.-Relief Measures.

#### B.—Transfers to Relief Fund,

The transactions under these heads, together with those under the Receipt head Transfer from Relief Fund', are exhibited in Accounts Nos. 78 and 100.

2. Under the Devolution Rules made under the Government of India Act, 1919, Provincial Governments, were required to establish and maintain a Relief Fund by annual assignment from their revenues. The provision of the annual assignment was optional. When the accumulated total of the fund amounted to a prescribed sum, the

balance at credit of the Fund was regarded as invested with the Central Government, which paid interest on it, and it was available for expenditure on famine relief proper and under certain conditions on other objects prescribed in the Devolution Rules. The position, however, changed under the Government of India Act, 1935, which contained no provision for a separate Relief Fund. It was, therefore, left to Provincial Governments and their Legislatures to take the measures for merly prescribed under the Devolution Rules.

The transactions of the Relief Fund are exhibited in Account No. 100, which shows the balance at the credit of the Fund at the end of the year 1964-65.

#### XLIV and 55 - Superannuation Allowances and Pensions

#### GENERAL

Pensions and gratuities paid from the revenues of Government fall into two main classes according as they are paid to officers who have retired from Government service or to the surviving families of deceased officers.

- 2. The accounts under this head are complicated by the appearance in the books of subscriptions to a number of old Funds which are closed for new subscribers but to which old members continue to subscribe. These abelished Funds include the Military Orphan and the Medical Retiring Fund, which have been replaced by the Indian Military Service Family Pension Fund, the accounts of which appear in the books of Dafence Services, the Bengal, Bombay and Madras Civil Funds, which have been replaced by the Indian Civil Service Family Pension Fund; and Superior Services (India) Family Pension Fund (Untransferred.)
- 3. Before 1st April, 1946, the receipts and charges under the Indian Civil Service Family Pension Regulation formed part of the revenue and expenditure of the Central Government. Since 1st April, 1936, these transactions have been funded, and now only the Government's share of the pensionary charges is adjusted under the head "Indian Civil Service Family Pensions".

### REVENUE

4. Apart from the transactions of the abolished Funds mentioned above, the subscriptions under the Indian Civil Service (Non-European Members) Family Pension Rules and contributions received from Foreign Governments, etc., in respect of the pensions of officers lent to them constitute the main items of revenue under this head.

#### EXPENDITURE

5. Expenditure on superannuation allowances, pensions and gratuities to retired civil officers of all Departments except Railways and Posts and Telegraphs is recorded under this head besides the contributions to Provident and Service Funds and family pensions paid from Funds merged in Government balances, including the abolished Funds mentioned above. This head is also debited with the annual equated payments to capital on account of commutation of pensions: see paragraph 6 below. Pensions to retired military officers are charged to the Defence Estimates. In this case of the Irrigation, manufacturing branch of the Salt Section of the Central Excise and Salt Department, and other Commercial departments except Railways and Posts and Telegraphs, the pensionary charges debitable to the Commercial heads of account are computed at a percentage on establishment charges, while the actual pensions are recorded under this head. In Railways and Post and Telegraphs the actual payments are debited to those departments.

Pensions for distinguished and meritorious services are granted on political consideration and pensions paid on account of maintenance of shrines and other items of a similar nature, are also recorded under this head.

## 55-A.—Commutation of Pensions Financed from Ordinary Revenue.

#### 83.—Payments of Commuted Value of Pensions

6. All payments on account of commutation of pensions whether made in England or in Pakistan including payments made to other Governments, but excluding payments to the employees in the Railway and Posts and Telegraphs Departments, are brought to account, in the first instance, under the head "83—Payments of Commuted value of Pensions", which is a capital head outside the Revenue Account, in the books of the Central or the Provincial Governments as the case may be, and at the end of the year such portion of the expenditure recorded under this head as the Government concerned may decide to meet from current revenues is transferred to the capital major head '55-A.—Commutation of Pensions financed from Ordinary Revenues'. The net amount debited to the capital major head '83.—Payments of commuted Value of Pensions', after deduction from it of the recoveries, if any, from other Governments, is repaid from revenue, either in a lump sum or by a system of equated payments, spread over 15 years, which include interest on the capital invested. Such equated payments are debited to the head "55—Superanuation Allowances and Pensions" or other appropriate major head in the Revenue section of the accounts, by credit to (a) the capital head "83—Payments of Commuted Value of Pensions" for the capital portion of the payments, and to (b). "22—Interest on debt and Other Obligations" for the interest portion. The procedure is applied mutatis mutandis to payments of commuted value of military pensions granted under the Military Rules. In Railways and Posts and Telegraphs, the actual payments of commuted pensions are debited to the revenue account of those Departments.

#### 83-A.—Purchase of Annuity for payment of Sterling Pensions.

ment concluded with Her Majesty's Government in U.K. in July, 1848, the Government of Pakistan funded with the former a capital sum of £8, 166, 848 (equivalent to Rs. 10,90,80,682/13/8) for the purpose of meeting the striling pensionary obligations of the Government of Pakistan and of those of the Provinces in Pakistan in return for which an annuity is to be made available to the Government of Pakistan on a tapering basis for a period of fifty years; namely, during each of the financial years 1948-49 to 1997-98 (inclusive) in 12 equal monthly instalments. These payments include interest charges at the rate of 1% per annum. The lump sum payment of Rs. 10,90,80,683 mentioned above has been accounted for under the new major head '83-A.—Purchase of Annuity for Payment of Sterling Pensions'. The amounts of annuities received from the Government of U.K. are accountable under the same Major Head, under the Minor Head 'Deduct—Receipts on Capital Account'. The element of interest included in the annuities received from the Government of U.K. is, however, accounted for as a receipt under the Major Head 'XX—Interest—Miscellaneous'. The actual payments of sterling pensions (both Central and Provincial) are, as usual, to be accounted for under the normal head of accounts, namely '555—Superannuation Allowances and Pensions.'

#### XLV and 56.—Stationery and Printing

#### REVENUE

This is essentially an expenditure head, and the revenue recorded in the accounts is rather a set off against some part of the charges than an independent source of income.

#### EXPENDITURE

The Commercial Departments, such as the Railways, Posts and Telegraphs and the manufacturing B anch of the Salt Section of the Central Excises and Salt Department and, when it exists, the Census Department, pay for their own printing and Stationery. The Defence Department is also debited with the cost of stationery supplied and printing work done. In the case of other departments of Government, whether Central or Provincial, expenditure on stationery and printing except for petty purchases of indigenous stationery, is usually brought to account under this head.

2. The bulk of the stationery is purchased in first instance for the Central Stores. The cost of all such purchases, whether made in Pakistan or England, is debited to the Central Government. It

is not until the stores are actually issued to Provincial Governments or to Central Departments which have to pay for their supplies that the debits are passed on to the provincial or departmental accounts. The recoveries effected are adjusted by reduction of the Central expenditure on purchases of stationery.

3. A new system based on costing principles was introduced in the accounts of Government Presses, with effect from 1924-25. Under this system, in addition to the actual cash expenditure on the different sections of the Presses, indirect charges such as pension payments, interest on capital outlay and depreciation on buildings etc., are worked out and distributed over these sections so as to arrive at the true cost of each section. A Depreciation Reserve has also been opened by the late Govt. of Punjab, North-West Frontier and Sind to which depreciation calculated on the value of the plants machinery and furniture in use in the Presses during each year is credited as also the residual book value of plant machinery and furniture disposed of during the year. This reserve bears the cost of all machines, etc., replaced during the year. The transactions of the Reserve are shown in Account No. 104 on page 196.

#### EXPENDITURE OUTSIDE THE REVENUE ACCOUNT

#### 84.—Capital Outlay on Printing Presses

This head records the expenditure of a Capital nature financed from borrowed fund in

connection with the installation of printing presses (Account No. 80-B).

J. and JJ. Miscellaneous,

#### XLVI and 57.—Miscellaneous

These heads cover all transactions of the Civil Department (as distinguished from the Defence and Compercial Departments, the Miscellaneous transactions of which are taken to the Defence Services of the commercial major heads of accounts concerned) which cannot be brought to account under any of the foregoing descriptive heads. The transactions are exhibited in sufficient detail in Accounts Nos. 81 and 81-A and do not require any further explanation.

The net credit or debit under "Exchange on Remittance Account" resulting from the year's transactions, which are originally accounted for under that head, is treated at the end of the year as a miscellaneous item of revenue or ependiture of the Central Government. The gain or loss by exchange in respect of transactions under debt, deposit, etc., heads of the Provincial Governments is also brought to account under the minor head. "Net gain by exchange on Remittance Transactions" in the Provincial Accounts.

The Defence receipts and Expenditure are booked under Major Heads "XLVIII/58—Defence Services—Effective", "XLVIII/59—Defence Services—Non-Effective" and "86—Capital Outlay on Defence Services" (the receipts/charges heads being denoted by Roman/Arabic numerals).

The Major Heads XLVII and 58—Defence Services—Effective record receipts and charges connected with the Armed Forces other than non-effective charges and the connected receipts which are recorded under two separate Major Heads XLVIII and 59—Defence Services Non-Effective. The receipts and charges under the former Major Heads are distributed over XII/14 main heads respectively and those under the latter Major Heads over III/4 main heads, respectively.

The receipts and charges recorded under the Major Heads XLVII/58 and XLVIII/59 referred to above also include receipts and charges which, under the decision of the Joint Defence Council, were divisible between the Governments of Pakand India on the basis of the ultimate strength of the Armed Forces of the two countries.

XLVII/58—Defence Services—Effective

The receipts and charges compiled under the main heads subordinate to the Major Heads XLVII and 58—Defence Services—Effective are briefly described below:—

Receipts

Main Head I—Fighting Services.
Miscellaneous receipts realised from Fighting
Services of the Army.

Main Head II—Administrative Services.

Receipts comprising contributions for training of officers from other Governments and Departments, breeding and covering fees, hospital, stoppages and receipts on account of sale and rent of land.

Main Head III—Mamifacturing Establishments (including stores).

Recoveries on account of work done by Clothing and Ordinancs Factories for non-Military Departments, sale of diary produce and grain and fodder from Military Farms.

Main Head IV—General Headquarters, etc. Miscellaneous receipts realised from Headquarters Formations of the Army.

Main Heads V.—Purchase and sale of Stores, equipment and animals (other than those purchased direct by the Manufacturing Establishments, Military Engineer Services, Air Force and Pakistan Navy).

Recoveries on account of stores issued on payment to officers and other Departments and proceeds from sale of surplus and obsolete stores.

Main Head VI,—Release Benefits and Miscellaneous Services.

Miscellaneous Receipts.

Main Head VII.—Transportation, Conservancy, Hot weather Establishments and Miscellaneous.

Contribution from other Departments or Governments for passage in respect of Military officers on loan to those departments and miscellaneous receipts.

Main Head VIII.—Military Engineer Services (including stores).

Receipts on account of rent for buildings, furniture, stores, supply of water and electricity and proceeds from sale of surplus and obsolute stores.

Main Head IX.—Auxiliary and Territorial Forces.

Miscellaneous recoveries.

Main Head X.—Air Force (including stores and works)

Receipts from sale of stores on payment, credit for services rendered, rent of buildings and furniture and other miscellaneous, items.

Main Head XI.—Pākistan Navy (including stores and works).

Receipts from sale of stores on payment, credit for services rendered, rent of buildings and furniture and other miscellaneous items.

Main Heads, XII.—Receipts on Certain Measures of Inter Service Nature.

This head records missellaneous receipts from Inter Service Organisations.

Expenditure

Main head I.—Fighting Services.
The expenditure under this head represents pays and allowances, and mistellations expenses of (i) Fighting services of the regular Army, (ii) State Forces, (iii) British Services Personnel in Pakistan and (iv) Forces whose expenditure has been treated as joint in accordance with the Joint Defence Council's decision

Main Head 2.—Administrative Services.

This head records expenditure on pay and allowances and miscellaneous items pertaining to the Administrative Formations. Training and Educational Institutions and other Miscellaneous Units of the Army.

XLVIII/59 DEFENCE SERVICES Non-Effective.

Non-effective receipts and charges brought to account under the Major Heads XLVIII and 59 are classified under main heads 1/1, 11/2, 111/3 and 4; the first three exhibit the transactions respectively of the Army, Air. Force and Navy and the last one merely records transfers from Capital.

2. Non-effective charges consist in the discharge of liabilities in connection with individuals who are no longer in service and are practically restricted to the payment of pensions and gratuities; but rewards for military services which frequently involve disbursements to officers and general similarity to

pensions and gratuities, also classified as non-effective charges.

- 3. The two main classes of persions are :-
  - (i) retired, wound and invalid pensions, and

Receipts in

(ii) family pensions.

Rewards for military services include besides the cost of decorations, medals, etc., the cost of annuities and gratuities granted for meritorious services.

#### 86.—CAPITAL OUTLAY ON Defence Services

Under the Major Head "86—Capital Outlay on Defence Service" is recorded expenditure incurred on major work costing rupees one lake or over in each case, capitalised value of pensions and capital stores and equipment. (See description of Main Head 13 on page 161). The capital expenditure on pensions is, however, ultimately to be extinguished by recovery from India (as per Partition Council's Decision relating sharing of pensionary Liabilities) or writeback to Revenue.

### Section M.—Extraordinary Items.

This Section records receipts and expenditure of a non-recurring character which it may be desirable to distinguish from the ordinary revenue and expenditure of the Central and Provincial Governments. The receipts do not include receipts of a capital nature connected with expenditure already debited to a capital head which are recorded by deduction from expenditure debited under that head. All civil expenditure connected with the Quetta earthquake of 1935 also brought to account in this Section.

- 2. A new major head '63-A-Expenditure connected with Post War Planning and Development' was opened in the accounts from 1944-45. After partition this head was operated upon in the North-West Frontier Province only up to 1952-53 merged in 1955-56 with the Province of West Pakistan. It was intended to record primarily initial expenditure on planning of schemes or projects of development and to show, as far as praticable, under a single head of account the activities of Government by way of Planning and Development. As and when schemes or projects became ready for execution and expenditure began to be incurred on them, such expenditure was classified under the appropriate service head or heads, e.g., expenditure on new hospitals or roads or electricity projects, was classified as "Medical" or "Civil Works" or "Electricity". Thus, when planning for development reached a sufficiently advanced stage, the major head in question. viz., '63-A' was abandoned altogether and all subsequent expenditure was taken in the ordinary heads of account. In East Bengal (now East Pakistan), however, the initial expenditure as well as the expenditure on fully developed schemes or projects is classified under a separate major head '63-B—Development', vide Account No. 90-C.
- 3. The major heads "LII-B—Civil Defence" and "64-B—Civil Defence" were opened in the accounts of the year 1942-43 to record receipts and charges of the Central and Provincial Governments connected with measures undertaken for Civil Defeace.

# Section MM.—Extraordinary items. Capital Account outside the Revenue Account. Capital Outlay on Schemes of State Trading.

4. This Capital major head was opened in the undivided India from the accounts of the year 1942-43 and is intended to record expenditure incurred by the Central Government on Schemes of State Trading and Stocking essentials for production.

### Grants to Provincial Governments for Development.

5. This Capital major head was opened in the

emdivided India with effect from the accounts for the year 1946-47 for recording the grants given by the Central Government to Provincial Governments for financing the Post War Reconstruction and Development Schemes undertaking by them. In Pakistan grants to Provincial by the Central Government for development and for capital expenditure or rehabilitation and resettlement of refugees are debited to this head. The statutory grants made by the Central Government to the former Government of North-West Frontier Province under Section 142 of the Government of India Act. 1935 (as adopted by the Pakistan Provisional Constitution Order, 1947), now to the Government of West Pakistan under Article 138 of the Constitution of the Islamic Republic of Pakistan, 1962, are, however, accounted for under the major head "61-Grants-in-aid to Provincial Governments" (vide Account No. 88, on page 164.)

### Central Miscellaneous Investments.

6. This major head was opened in the accounts for 1951-52. Capital investments which cannot be accounted under specific major heads are recorded under this major head.

### Provincial Miscellaneous Investments.

7. This Capital Major Head was opened in the Account for 1952-53. Provincial Capital Investments which cannot be accounted for under specific major heads are recorded under this head (ride Account No. 91-E on page 171.)

The transactions relating to the Government Transport Service in the N. W. F. P. recorded in the previous years under major head "82—Other Provincial Works outside the Revenue Account" have been brought proforma under the major head without financial adjustment as a result of the transfer of the charge of the "Government Transport Service" from the Provincial Government to the "N.W.F.P. (now West Pakistan) Road Transport Board".

# Capital Outlay on Schemes for Rehabilitation of Displaced Persons from Kasamir.

8. This major head accommodates the transactions in connection with the expenditure on the various schemes for the Rehabilitation of Displaced Persons from Kashmir. The expenditure is ultimately chargeable to the Special Fund for the Rehabilitation of Displaced Persons.

### Capital outlay on Extraordinary charges.

9. This head has been opened in 1958-59 to accommodate the expenditure connected with the Acquisition of New Territory.

No. 90.—ACCOUNT of Extraordinary Receipts credited to Revenue during the year ended 39th June, 1965.

### Sections N. to V.—Debt, Deposits, Advances, etc.

These Sections deal with the Debt and Remittance Transactions of Government, as distinct from Revenue, Service and Capital Transactions which have been dealt with in the preceding Sections. Besides the accounts of Public Debt, these Sections include an account of all other sources, apart from Revenue, from which Capital and other disbursements outsides the Revenue Account are financed.

2. A progressive account of Capital and other disbursements of the Central and Provincial Governments (outside the Revenue Account) to end of 1962-63 and of the principal sources from which funds were provided for such expenditure is set forth in Account No. 92. Although this account is not a complete balance sheet, it gives a fairly accurate presentation of the changes in the financial position of the Central and Provincial Governments from year to year. In this account the loans from

the Central Government to Provincial Governments are treated as disbursements of the Central Government and as part of the Public Debt of the Provincial Government. The amounts entered as Capital debited to Commercial Departments provided from Government sources, whether they have been financed from loans raised by Government or otherwise.

The following are the sources, apart from loans, from which such capital outlay is financed:

- (1) Ordinary Revenue.
- (2) Surplus cash balances.
- (3) Savings Bank deposits.
- (4) Net receipts under other deposits, advances and remittances.

N.Q. and R.—Debt and Advances, etc.

No. 92—STATEMENT showing the Capital and other Expenditure (outside the Revenue Account) of the Several Governments in Pakistan and in England to end of the year 1964-65 and the Principal Sources from which Funds were provided for that Expenditure.

### Section N--Public Debt.

### Public Debt of the Central Government.

The Public Debt of the Central Government is divided in the accounts into two classes, (a) Permanent Debt and (b) Floating Debt. "Permanent Debt" covers all such debt raised by Government in the open market as, at the time when it is raised, has a currency of more than 12 months. Under this category also falls Pakistan's final debt liability to India, under the financial settlement between the two countries. The term "Floating Debt" is applied to borrowings of purely temporary nature, such as Treasury Bills and Ways and Means Advances from the State Bank of Pakistan with a currency of not more than 12 months.

 The final debt hability of Pakistan to India as on 14th August, 1947, has not yet been determined.

### Public Debt of Provincial Governments.

3. The Public Debt of the Provincial Governments is divided in the accounts into three classes, I—Permanent Debt, II—Floating Debt and III—Loans from the Central Government. The terms "Permanent Debt," and "Floating Debt," have already been explained in paragraph I above. Under Article 140 of the Constitu-

tion of Islamic Republic of Pakista 1, 1962, the Provincial Governments have powers to raise loans in the open market upon the security of their Consolidated Funds within such limits, if any, as may be determined by an Act of the Provincial Legislature. The Provinces may not without the consent of the Central Government borrow outside Pakistan, nor without the like consent raise any loan if there is still outstanding any part of a loan made to the Province by the Central Government or in respect of which a guarantee has been given by the Central Government.

Loans granted by the Central Government to the Provincial Governments are recorded under the head "III—Loans from the Central Government" in accordance with the pre-Partition procedure. The outstanding loans to the provinces as on the 14th August, 1947, which, on Partition, remained wholly in either dominion have been treated as the asset of that dominion. In the case of the loans against the Provinces, which have been partitioned, the share of the debt allocated to each of the new Provinces would accrue to the dominion in which it has fallen.

4. The balances wherever shown in Accounts Nos. 93 and 93-A exhibit ultimate liability of Government as represented by nominal value of outstanding debt.

No. 93.—ACCOUNT of Public Debt of the Central Government showing the Additions to and Discharges of Debt during the year ended 30th June, 1965 and the Amount of Debt at the commencement and close of the year.

### Section Q .- Loans and Advances by the Central Government

This Section records transactions connected with the advances to Provincial Governments loans to acceding states and loans and advances granted by the Central Government to local funds, etc. Loans granted by the Central Government to Government servants for house-building, purchase of motor conveyances and similar purposes, are also brought to account in this Section.

- 2. It has been decided that the outstanding loans by the Central Government to Provincial Governments. Government servants and local bodies, Part Trusts, etc., on the 14th August 1947 should be allocated between Pakistan and India in the following manner:—
  - (i) Loans to Provincial Governments:—.
    The loans to the Provinces which remain

- wholly in either dominion may be treated as the asset of that dominion. In the case of the Provinces which hase been partitioned, the share of the debt allocated to each of the new Provinces may accrue to the dominion in which it falls.
- (ii) Leans to Government servants.—The outstanding balances may be taken over by the Government employing the Government servants after the partition.
- (iii) Loans to Local Bodies. Port Trusts, etc:— The loans may be divided on the basis of location.

O.P.S. & V.—Debt, Deposits etc.

### Section O .- Unfunded Debt.

The term "Unfunded Debt" in the Government accounts is applied to a number of interest bearing obligations relating to funds deposited with Government for various purposes. These are:—

Special Loans.—The obligations recorded under this head relate to endowments for specific purposes of a religious or charitable character, such as the maintenance of choultries for travellers, asylums for the poor, etc., which were accepted by Governments from private persons at various times. The Governments of Pakistan and India have agreed that subject to verification of details the outstanding liability under this head on 14th August, 1947 should be allocated on a territorial basis to each dominion except that the liability for the Oudh Loan should be further examined and settled between the Governments. The liability on account of endowment in favour of Lawrence Memorial Asylum at Murree is allocable to Pakistan on territorial basis.

Deposits of Service Funds.—These represent the balances of certain Service Funds, like the Bengal Uncovenanted Service Family Pension Fund, the Bengal and Madras Service Family Pension Fund, the Bengal and Madras Service Family Pension Fund, which are not under the control of Government but the balances of which are deposited with Government on favourable terms as to interest. The Indian Military Widow's and Orphans' Fund, (Untransferred). Indian Civil Service Family Pension Fund (Untransferred and the Indian Military Service Family Pension Fund (Untransferred), though under Government control, are classed under this group for the sake of convenience. In the case of the former Funds it was decided at the time of partition to consult the administrators of the Funds and the subscribers through them before the balances should be split between Pakistan and India. In the case of the latter Funds it was decided that they should be funded in sterling with Her Majesty's Government as part of the sterling balances negotiations.

Saving Bank Deposits.—These relate to Savings Banks established at Post Offices throughout the country with a view to encouraging thrift among ordinary public. Deposits are received into them subject to certain limitation and bear interest at the rates of 2½ per cent. It has been decided that the balances on account of Savings Banks Deposits and Defence Savings Bank Deposits on 14th August, 1947 should be allocated between Pakistan and India on the basis of the location of particular deposits on that date after taking into account the transfers between the two countries the applications for which were made up to 1st March, 1948.

Post Office Certificates.—These include Post Office Cash Certificates, Post Office Defence Savings Certificates and Post Office National Savings Certificates. The Cash Certificates are repayable on demand at any time, but are ordinarily expected to remain in deposit for five years. On repayment, after the first year of deposit a bonus is payable in addition to the principal. For a certificate remaining in deposit for the full five years, the bonus payable represents at the rate of issue prevailing during the year 1949-50, approximately 2½ per cent, compound interest. The Defence Savings Certificates were issued with effect from 5th June, 1940. The certificates like the Cash Certificates are payable on demand with a bonus if paid on expiry of two years from the date of issue but are ordinarily expected to remain in deposit for 10 years. The bonus payable after the full term of 10 years represents approximately 38 per cent, compound

interest. The issue of these Certificates was stopped from 1st October, 1943.

From 1st October, 1943 National Savings Certificates were issued. These Certificates like the Defence Savings Certificates are payable on demand with a bonus if paid on or after expiry of three years from the date of issue. The bonus payable after the full term of 12 years amounts approximately to 4; per cent. simple interest.

It has been decided that the following formula should be adopted to determine the liability of Pakistan and India for Post Office Certificate that had been issued up to the 14th August, 1947:—

- (a) The liability of both dominions should be nationally assessed on the basis of the certificates outstanding as on 14th August 1947.
- (b) For payments in either domittion between 15th August, 1947 and 31st March, 1948 of certificates registered in the other, the dominion making the payment will take the liability and the debt as calculated in (a) above will be corrected.
- (c) For transfers between the two dominions the applications for which were received up to 31st March, 1948, the hability will be adjusted by correcting the original debt as calculated in (a) above without payment of the capital value in cash.

Pakistan 6 years Defence Saving Certificates have been issued with effect from the 1st January, 1949. These certificates are encashable with bonus if paid after the expiry of one year from the date of issue. The bonus payable after the full term of 6 years amounts approximately to 31 per cent. simple interest.

A separate Fund was set up in 1930-31 to provide for the accruing liability in respect of bonus on Post Office cash Certificate by an annual provision in the Revenue budget of the Central Government. At the end of the year, the unutilised balance of this provision is transferred to a deposit head "Post Office Cash Certificates Bonus Fund". When it is necessary to draw on the Fund the amount withdrawn is transferred to revenue by dabit to the deposit head

Another fund called "Post Office Defence Saving Certificate Bonus Fund" was also created in the year 1942-43 on the lines of the "Post Office Cash Certificates Bonus Fund" to provide for the accruing liability in respect of bonus on Post Office Defence Savings Certificates. Similar Fund exists for National Savings Certificates. The transactions of these Funds are shown under "Post Office Certificates Bonus Fund" in account No. 104 on Page 195.

State Provident Funds.—These represent the balance of the State Provident Funds, i.e., funds established for the benefit of Government servants including the servants of Pakistan Government Railways. Deposits are compulsory for certain classes of servants and optional for others. Interest on deposits is allowed at favourable rates and in the case of Railways, the deposits by the employees are supplemented by contributions from Railway funds, similar contributions are also made by Government in the case of certain Contributory Provident Funds. The accumulated deposits are paid to the depositors on the termination of their services with Government and temporary withdrawal are permitted in the interval in certain circumstances. The liability for the balances in these Funds as on 14th August, 1947 has been taken over by the Government to whose service the Government servant has been transferred.

Other Accounts—This head includes the balances of funds of certain Provident Associations (mostly under private management) which Government has consented to receive at certian specified rates of interest

As to the allocation of the outstanding balances under this head on 14th August, 1947 between Pakistan and India it has been decided that in the case of Postal Life Insurance Fund the liability for the policies should be taken over by the Government

to whose service the policy holder has been transferred or in whose territory the insurant resided; as regards the other miscellaneous funds the liability should be allocated by location as far as possible and in the case of outside bodies as far as possible in consultation with them.

The sub-divisions under these classes are given in Accounts No. 97 to 99 with the balances held under each and the actual amount of interest paid during the year.

# APPROPRIATION FOR REDUCTION OR AVOIDANCE OF DEBT

The credits brought to account under this head are divided into two categories:

- (a) Sinking Funds for Provincial Loans.
- (b) Other Appropriations.

2. As explained in the Note on "23—Appropriation for Reduction or Avoidance of Debt" under "Section E—Debt Services" (Page 87), the head (a) is credited with the amounts set apart each year for the Sinking Fund created for Provincial loans by charge to the Revenue expenditure head "23—Appropriation for Reduction or Avoidance of Debt (see Account No. 42) and the profits realised on investment of the balances in the Fund, are debited with charges connected with redemption of debt either by purchase and cancellation or by

direct discharge. On actual cancellation of the stock the nominal value of the cancelled securities is shown as debt discharged in Account No. 93-A.

The nature of the transaction under (b) "Other Appropriation" has been explained in the Note under "23—Appropriation for Reduction or Avoidance of Debt" (page 87).

### SINKING FUND INVESTMENT ACCOUNT

Pending utillisation for the purposes for which the Sinking Funds have been created the amounts standing at credit of the Funds are generally invested in securities of the Central and other Governments. The amounts expended in the purchase of these securities are taken to a separate head "Sinking Fund Investment Account" while the interest accruing from the investments is credited to the Sinking Funds concerned.

O. P. S. and V. - Debt, Deposits, etc.

### Silver Redemption Reserve; Purchases and Sales of Silver

On the inauguration of the Reserve Bank of India on the 1st April, 1935, the currency organisation of the undivided Government of India and the machinery by which purchases and sales of silver were effected by it under-went changes of farreaching significance, the principal changes being as follows:—

- (1) The Gold Standard was abolished.
- (2) The management of the currency including the note issue was transferred to the Reserve Bank thus involving the disappearance of the Paper Currency Reserve from the Government books.
- (3) A new account called the Surplus Silver Stock Account was introduced.
- (4) A new reserve called the Silver Redemption Reserve was created.

A short description of the bearing of each of these changes on the financial system of the undivided Government of India and of the accounting arrangements involved is given below:—

### Gold Standard and Paper Currency Reserve

2. With the passing of the Reserve Bank of India Act, the responsibility for maintaining exchange, for keeping the Central Government supplied with all the funds required by them in England and for the management of the currency system devolved on the Reserve Bank. The Gold Standard Reserve accordingly ceased to exist from 1st April, 1935 and the Paper Currency Reserve after its composition had been suitably modified to conform to the provisions of the Reserve Bank of India Act, was handed over to the Bank. On 1st April, 1935, the note issue of the undivided Government of India stood at Rs. 1,86,10,23,276. Against this, the assets of the two Reserve were amalgamated and the assets transferred to the Issue Department of the Bank as cover against the note issue were as follows:—

		Value in Rs
(a)	Gold 4	4,42,16,885
<b>(</b> b)	Sterling Securities 4	8,62,94,753
(c)	Rupec Coins 4	9,99,92,674
(d)	Rupee Securities 4	3,05,18,964
100	하다 그 그를 생각하는 하는 사람들은 함께 <del>되면</del>	

1,86,10,23,276

The rupes Securities held in the Paper Currency on the 31st March, 1935 amounted to

Reserve on the 31st March, 1935 amounted to Rs. 35,89,71,125. The enhancement of these securities to Rs. 43,05,18,964 at the time of the transfer to the Bank involved a corresponding reduction of the Sterling Securities left over after the transfer

by £ 53,66,088 (Rs. 7,15,47,839).

The surplus in the two Reserves which became available for general purposes of Government after providing the cover required by the Bank in the form indicated above aggregated to Rs. 53-1/3 crores being the equivalent of the corpus of the Gold Standard Reserve, namely £ 40 millions, on the 31st March, 1935. The assets thus lapsing to Government consisted of 27,25,37,585 surplus rupee coins, 13,12,47,327 totals of silver bullion valued at rupee one per standard tola and sterling assets of the value Rs. 12,95,48,421. The surplus Silver thus remaining was accounted for in the manner indicated in paragraph 3 below. Of the sterling assets left over, securities of the market value of £ 7-1/2 milion (Rs. 10 crores) were used to form the Silver Redemption Reserve the balance, namely, Rs. 2,95,48,421 being utilised for reducing the outstanding silver debt of Government by crediting the amount to the head "Purchases and Sales of Silver".

### Surplus Silver Stock Account.

- Stock Account' was opened to which was debited the surplus silver retained by Government after the delivery of 49,99,92,674 whole rupees to the Bank under Section 55 of the Reserve Bank of India Act. The amount was maintained in terms of weight of silver, i.e., in standard tolas and was divided into two main parts, namely, "Coined Stock and Uncoined Stock". The former was the account of surplus current rupee coins and the latter that of all ailver bullion and uncurrent silver coins returned to Government by the Bank were debited to the "Uncoined Stock" account and current coins of an equivalent amount were handed over to the Bank from the "Coined Stock" account remaining unchanged by these transactions except for small reductions due to differences between the weight of the current coins handed over to the Bank and that of the uncurrent coins received from it. On the other hand the stock of silver held in this account was increased by any rupee coin returned to Government by the Reserve Bank under Section 36 (1) of the Reserve Bank of India Act and reduced by the amount of any rupees delivered to the Bank under Section 36 (2) by the Act or by the amount of silver disposed of by sale. The Surplus Silver for quaternary coinage and was increased by the return of standard silver coins in exchange for quaternary coins and one rupee notes.
- 4. The stock of surplus current rupees was held on behalf of Government by the Reserve Bank which submitted a monthly account to the Accountant General, Bengal, while the "Uncoined Stock" was held in the custody of the Secretary of State and the Mints. The proforma account of both these parts was prepared annually and was subject to audit by the Auditor General of India.

### Silver Redemption Reserve.

- 5. As stated above, a Silver Redemption Reserve was created with a balance of £ 7-1/2 millions worth of sterling securities. The primary object of this Reserve was to provide sterling assets for transfer to the Issue Department of the Bank against delivery by the Bank of rupee coins in accordance with the proviso of Section 36 (1) of the Reserve Bank of India Act. Except for some small amount of cash eld in the cash balances of the Secretary of State the entire balance of the Reserve was invested in sterling securities. The Reserve including the invested portion was in the custody of the Secretary of State.
- 6. This Reserve was maintained at a market value of Rs. 10 crores. It was, however, increased by receipts from any of the following sources namely:
  - (a) proceeds of sales of silver from the Surplus Silver Stock;
  - (b) payments from the Bank under Section 36(2) and 36(3) of the Act;
  - (c) profits from any casual sales of Gold by the bank accruing to Government as part of its share of the profits of the Bank; and
  - (d) capital appreciation of the securities.

The Reserve was liable to diminution from two causes, namely:—

- (i) transfer of assets to the Bank under the proviso to Section 36(1) of the Act to meet sterling liabilities in respect of return of coins, and
- (ii) capital depreciation of securities.

Receipts from the first three sources were regarded as available for replenishment of the Reserve only to the extent of any deficiency caused by previous payments to the Bank, any excess in the corpus of the Reserve over Rs. 10 crores, being credited to the head "Purchases and Sales of Silver." As a matter of accounting machinery and in order to avoid the record of silver sales under different heads as such sales were recorded in the first place under the head "Purchases and Sales of Silver" any amount appropriated to the Silver Redemption Reserve, being credited to the Reserve, Capital depreciation constituted the first charge on the interest realised on these securities held in the Reserve and only the net amount of interest in any year, after making good any depreciation suffered during that year, was credited to revenue under the head "XX-Interest". If in any year there was a net appreciation in investment belonging to the Reserve, the amount of such appreciation together with all the interest receipts of that year was credited to revenue.

7. The transactions of the Reserve were included in the Government account, and for this purpose two heads styled "Silver Redemption Reserve" and "Silver Redemption Reserve Investment Account" under Section "P—Deposits and Advances" were operated.

The Government of Pakistan are not maintaining any such Reserve, and their Share in the Reserve held in the United Kingdom on behalf of the Undivided Government of India has been received and adjusted in the Pakistan Accounts for 1954-55.

### Purchases and Sales of Silver

8. This head was introduced to replace the 'Gain or Loss on Re-valuation, Sales. Transfer, etc., of Assets of the Paper Currency Reserve Losses on Sales of Silver" which was used as a suspense head to accommodate the Book losses arising out of sales of Currency reserve silver since 1927-28. As each tola of standard silver held in the Paper Currency Reserve was valued at Re. 1 in the Currency accounts, the deficiencies caused by differences between the standard value of the silver sold, and the sale proceeds had to be made good from treasury balances usually by issue of ad hoc treasury bills to the Paper Currency Reserve. The loss on sales of silver since the commencement of selling opereations and the unjusted balance under the Suspense head "Sales of Silver" which was in fact represented by a corresponding portion of the Public Debt of the undivided Government of India amounted to about Rs. 44.61 crores to end of 1934-35, and this figure was taken as the opening balance of the head "Purchases and Sales of Silver" on 1st April 1935. stated in paragraph 2 above, a sum of Rs. 2,95,38,421 being the equivalent of surplus sterling assets which lapsed to Government on the closing down of the Gold Standard Reserve, after allowing for Rs. 10 crores retained to constitute the Silver Redumption Reserve, was taken to the credit of this head in the accounts for 1935-36. The value of silver transferred for quaternary coinage and the net profit from the circulation of quaternary coins were also credited to this head. The outstanding debit under this head were reduced by proceeds of silver sales and other receipts in the manner set forth in paragraph 6 above. Further debits to this head consisted mainly of (a) payment to the Reserve Bank for return of coins under Section 36 (1) of the Reserve Bank of India Act, except in so far as such payments were made in the form of sterling assets from the Silver Redumption Reserve; (b) amount of standard silver rupees returned by the Bank in exchange for quaternary rupees; and (c) incidental charges connected with

silver sales including shipment of silver. From 1st April, 1935 the date on which Paper Currency stock was handed over to the Reserve Bank, all sales of silver on Government Account were made out of the Surplus Silver Stock mentioned in paragraph 3 above, the sales being reflected in reduction of stock.

Position of the assets of the issue Department of the Reserve Bank, Sarplus Silver Stock Account, Silver Redumption Reserve and Purchases and Sales of Silver after Partition.

9. Assets of the Issue Department of the Reserve Bank.—During the period from 15th August, 1947 to 30th June, 1948 the Reserve Bank of India managed the Rakistan currency under the Pakistan (Monetary System and Reserve Bank) Order, 1947, as amended by the Pakistan Monetary System and Reserve Bank (Amendment) Order 1948. The following provisions of these Orders govern Pakistan's share of the assets of the Issue Department of the Reserve Bank:—

Part IV.—4(1) As soon after the 30th June, 1948, as practicable and subject to the provisions of Sub-section (3), there shall be transferred from the Issue Department of the Bank to the Government of Pakistan assets, which, as valued for purposes of the Reserve Bank Act, have together a value equal to the total liability in respect of the Pakistan notes outstanding on that day.

(2) India notes which may be legal tender in Pakistan on the 30th June, 1948, or in respect of which the rights of encashment in Pakistan exist on that date shall be accepted by the Government of Pakistan at par until the 30th day of June, 1949 and on the delivery of such notes to the Bank from time to time in instalments of not less than 5 crore of rupees each, there shall be transferred from the Issue Department of the Bank to the Government of Pakistan Assets which as valued for the purposes of the Reserve Bank Act, have together a value equal to the amount of notes delivered by the Government of Pakistan under this sub-section.

٥

2

- (3) In transferring assets under this section Pakistan rupees securities and the advances, if any, taken by the Government of Pakistan from the Bank shall first be set off against the liability for Pakistan notes and India notes delivered by the Government of Pakistan and only in respect of the balance of that liability shall the other assets of the Issue Department consisting of gold, sterling securities, India rupee coin, Pakistan rupee coin and Government of India securities, be transferred in the proportions in which the assets of those classes respectively may be held by the Issue Department on the 30th day of June, 1948 and in accordance with the following provisions of this Part.
- 5. All transfers of gold under the provisions of Section 4 shall, except in the last instalment, be in such number of gold bars as do not exceed in value the amount due to be transferred in gold in that installment.
- 6. For the purpose of determining Pakistan's share of sterling securities and Government of India securities under the provision of Sub-section (3) of Section 4:—
  - (a) the amount of sterling securities held in the Issue Department of the Bank on the 30th day of June, 1948, shall be doesned to be reduced and the amount of Government of India securities so held on that day shall be deemed to be increased, by the amount by which the amount of sterling held in the Banking

Department of the Bank on that day falls short of the aggregate of :---

- (i) the amounts, payable in sterling to the Government of the United Kingdom in pursuance of any agreement that may be reached as to the final settlement of the sterling balances.
- (ii) the amounts payable in sterling to the Government of Pakistan and the Porvincial Governments in Pakistan under the provisions of Section 11, and
- (iii) the amounts of the balance at the credit of the Bank's Account No. 1 with the Bank of England; and
- (b) the increase in each kind of Government of India securities under clause (a) shall bear the same proportion to the total increase as the amount of that kind of securities held in the Issue Department of the Bank on the 30th day of June, 1948, bears to the total amount of Government of India securities so held on that day.
- "11. (1) The amounts standing to the credit of the Government of Pakistan or any Provincial Government in Pakistan, with the Bank on the 30th day of June, 1948, shall be paid by the Bank—
  - (a) In Pakistan currency, to the extent that such currency is available in the Banking Department of the Bank on that day; and
  - (b) the remainder by transfer from the balance in the Bank's Pakistan account with the Bank of England and to the extent that such balance is insufficient, by transfer from the Bank's No. II account with the Bank of England."
- "12. The transfer to the Government of Pakistan of the Government's Bank profits under the provisions of Section I and of the assets of the Issue Department of the Bank under the provisions of Section 4 shall be provisional pending the settlement of Burma's claim to a share of the Bank's profits and assets and shall be subject to re-adjustment when that claim is finally settled."

### Surplus Silver Stock Account

10. The surplus silver stock of the Government of India was augmented by the receipt of 226 million ounces silver from the United States Government under Lease Lend arrangement during the war. On partition, the silver held in Surplus Stock Account in each Dominion was taken over by that Dominion. It was, however, decided by the Partition Council that the United States Government to whom the silver, obtained from that Government was to be

returned in kind within 5 years of the end of the emergency as determined by the President of the U.S. A should be informed that each Dominion would be responsible for producing the silver required, when the liability fell due, equal to:—

- (a) the silver held in each Dominion in the Surplus Stock Account on the 15th August, 1947, plus
- (b) the silver obtained in each Dominion by the retirement of quaternary silver coin between the 15th August, 1947 and the date on which the liability is discharged.
- (c) the balance of the liability will be divided between the two Dominions in the ratio of 17-1/2 for Pakistan and 82-1/2 per cent for India, each Dominion being free to discharge its liability by precuring silver in any manner it chose.

The above however has been modified under an agreement between the Governments of Pakistan and India in May, 1956 as under:—

(i) The Government of India and Pakistan will be directly and separately accountable to the United States Government for the return of the silver in the following quantities:—

Government of Pekistan 53.457.797 fine ounces Government of India 172.542.107 fine ounces

- (ii) The two Governments will inform the United States Government of this agreement and request that Government to hold each of the two Governments directly and separately accountable for the return of the silver in the quantities stated above.
- (iii) The Government of India will inform the Bank of England that out of the Stock of 12.66.916 fine ounces of silver held on their behalf 2.21.710 fine ounces should he hold on behalf of and at the disposal of the Government of Pakistan as their Share of 17-1/2 per cent.

Pakistan's above share has since been separate ed by the Bank of England to be held by it on behalf of and at the disposal of Government of Pakistan.

### Silver Redemption Reserve

11. It was decided by the Partition Council that Pakistan should get 17-1/2 per cent of the reserve.

### Purchases and Sales of Silver

12. The question of retention or otherwise of the major head "Purchases and Sales of Silver" in Pakistan is under consideration.

# Central Road Fund and subventions from the Central Road Fund to Provincial Governments.

In Pakistan a Central Road Fund has been constituted with effect from 15th August, 1947, out of the Customs and Central Excise revenue on petrol other than aviation spirit at the rate of 2-1/2 annas per gallon. The accounting and other matters connected with this Fund are explained below.

- 2. The entire proceeds of the additional duties are credited to the head "I-Customs" or "H-Central Excise Duties" according as they represent extra import or excise duties but at the end of each year an equivalent amount after deduction of a certain portion in respect of motor spirit used for aviation purposes, is transferred as a block grant to the Central Road Fund by debit to the head "50—Civil Works—Block Grant for transfer to Central Road Fund". The annual grants are credited to the deposit head "Central Road Fund" in "Section P-Deposits and Advances not bearing interest", and balances at the credit of the Fund or of any allocation thereof unexpended do not lapse at the end of the financial year. The amount credited to the Fund is distributed as follows:—
  - (a) A portion equal to 15 per cent. is retained by the Central Government as a Central reserve which is applied firstly to defraying the cost of administering the Road Fund and thereafter expended upon such Schemes of research and intelligence and upon such special enquiries counceted with roads and upon special grants-in-aid for such objects connected with roads as the Central Government may approve.
- (b) Out of the remainder—
  - (i) a portion is allocated for expenditure in each Governors, Province;
- (ii) a protion is allocated for expenditure in Baluchistan;
- (iii) a portion is allocated for expenditure in the Federal Capital; and
- (iv) a portion is allocated for expenditure in each Acceding State as near as possible according to the following formula—
- (1) 1/4th in the ratio of the area of each unit to the total area of Pakistan;
- (2) 1/4th in the ratio of population of each unit to the total population of Pakistan:
- (3) 1/4th in the ratio of expenditure on maintenance of roads in the unit to the total expenditure on roads for the whole of Pakistan; and
- (4) 1/4th in the ratio of petrol consumption each in unit to the total consumption in the whole of Pakistan.
- (c) If, for any year, the share of a participating unit works out to less than Rs. 2,500 in amount it is not paid to that unit.

No. 102-ACCOUNTS of the Contest P.

The amount so withheld is added to the total distributable amount for the following year.

- 3. The sums allocated for expenditure in Provinces and States, etc., in Pakistan may, subject to the previous approval of the Central Government to each proposal made be expended upon any of the following objects, namely—
  - (i) construction of new roads and bridges of any sort;
  - (ii) reconstruction or substantial improvement of existing roads and bridges.

The Provincial Governments are required to give priority to Defence works for expenditure from the Fund.

The portions allocated for expenditure in Provinces are retained by the Central Government until they are actually required for expenditure in the aforesaid manner.

- 4. If in the opinion of the Central Government, the Government of any Province has at any time:—
  - (a) failed to take such steps as the Central Government may recommend for the regularisation and control of motor vehicles within the Province; or
  - (b) delayed without reasonable cause the application of any portion of the Road Fund allocated to it for expenditure within its area, the Ceutral Government may resume the whole or part of any sums which they may at that time hold for expenditure in that Province.
- 5. All sums resumed by the Central Government from the account of any Provincial Governments are re-allocated between the credit accounts of the Provincial Governments and the reserve with the Central Government in the ratio of the main allocation for the fluancial year preceding the year in which re-allocation is made; provided that the sum so calculated as the share of the Province from whose account the resumption has been made is also credited to the reserve with the Central Government.
- 6. The subventions from the Central Road Fund to the Provincial Governments and Central Government Administrations are cerdited to the head "P—Deposits and Advances—Other Accounts—Subvention from Central Road Fund" in the Provincial or Central section of the accounts, as the case may be.

The amount credited to the Central Road Fund during 1964-65 has been shown in Account No. 102.

### Exchange on Remittance Accounts -

The actual procedure for the allocation between different heads of exchange, gains or lesses, is as follows:—

All exchange arising in respect of remittance transactions with England is brought to account in the first instance under the deposit head "Exchange on Remittance Accounts" in the Central Government accounts. Exchange is then calculated in respect of all revenue and capital transactions in England of the Central Government and all English transactions of Provincial Governments including those relating to debt, etc., heads. These calculations are made monthly and are based on the average of the Karachi daily market rate for telegraphic transfers on London which is taken as the standard for effecting

remittances to England to meet expenditure in that country.

2. The adjustments on account of exchange in respect of Posts and Telegraphs, Railways, Defence and other commercial Departments and undertakings and for Capital transactions are taken to the respective heads of account, while those for other Revenue and service heads are taken collectively to "XLVI/57-Miscellaneous" in the Central and Provincial Accounts. The adjustment in respect of the debt head transactions of Provincial, Governments is taken to the head "XLVI-Miscellaneous". The balance remaining under the deposit head after these transfers are made, is transferred at the end of each year to the revenue account of the Central Government as a miscellaneous item of Revenue or expanditure (See Account No. 81).

No. 108—ACCOUNT of Exchange on Remittance Accounts for the year ended 30th June, 1965.

### Section S.—Remittances

### Remittances between England and Pakistan

The transactions brought to account under this head are classified under the following minor

(i) Revenue Receipts.
(ii) Capital Receipts.

(iii) Expenditure on Revenue Account.

- (iv) Capital expenditure outside the Revenue Account.
- Net disbursements on behalf of Railways
- (vi) Net disbursements on behalf of Provincial Governments.
- Miscellaneous Accounts (vii) Remittances ; between England and Pakistan.
- 2. All English transactions of the Central Government and of the Provinces with the excepttion of those representing genuine sterling liabili-ties or assets are now passed oh to Pakistan through the Remittance Account to be brought to account along with similar transactions in this country. These transactions are shown in hump under the respective heads in account No. 111.

- 3. The transactions under (vii) 'Miscellaneous Accounts between England and Pakistan" fall into two classes :-
  - (i) Transactions put through by the agency of Government on behalf of third parties, chiefly Her Majesty's Government, in the United Kingdom, involving cash recoveries from or cash payments to them against corresponding payments or receipts in Pakistan on their behalf such as recoverable expenditure incurred in Pakisten on account of the War Office or the Admiralty and expenditure incurred in England on behalf of Local Funds, Pakistan States, or
  - (ii) Transactions which require final adjustment in the Pakistan Accounts.

The details of transactions falling under classes (i) and (ii) are given in Account No. 111. The various descriptive heads under which these tran-The sactions are shown, indicate their nature.
